

HOEVERS PLAN
NEW YEAR FETE
White House Reception to
Be Brilliant Affair
WASHINGTON, Dec. 29. (AP)—The
President and Mrs. Hoover plan to
observe the tradition which has
made the annual New Year's recep-
tion at the White House an affair
of official importance and social
brilliance.
The President will receive the
members of the Cabinet and the
Diplomatic Corps at 11 o'clock New
Year's morning. Ten minutes later
the Chief Justice of the United
States and Associate Justices of the
Supreme Court and other members
of the judiciary will be received.
At 11:15 Senators and Represen-
tatives will pass the reception
line, to be followed at 11:25 by the
Army, Navy, Marine Corps, the
Public Health Service and the
Coast and Geodetic Survey.
At 1 o'clock in the afternoon the
general citizenship of the country
will be received.

Keep your Savings Reserve AVAILABLE

A PRUDENT person keeps a cash reserve, in a savings bank. Availability is a necessary element. The man or woman who has laid by such a reserve wants to be sure that it can be used in case of emergency or in case of opportunity.

If your cash reserve is in a savings bank "back east" it is not as available as though it were here, in Security-First National Bank. Now...at the end of the six-month's interest period...is the time to move it here.

Bring in your pass book, to any of our Offices or Branches, whichever one is the most convenient, and we will arrange transfer of your funds, without loss of interest and without charge for exchange. The time is limited. Attend TODAY to this important matter.

ITALIANS READY FOR ARMS CUT
Mussolini Declaration Given by Foreign Minister
Rome's Course Will Depend on Actions of Others
Hoover Address to Legion Receives High Praise

ROME, Dec. 29. (AP)—Dino Grandi, Italian Foreign Minister, today informed the Associated Press that "Premier Mussolini has declared formally that Italy is ready to reduce armaments to the minimum, provided other countries are ready to do the same, and the policy of the Italian delegation to the London naval conference will be based on this principle."

Signor Grandi said he was particularly impressed by the idealism and practical ideas of President Hoover's Address Day speech. He considers Mr. Hoover's words, chiefly his proposal to give food ships immunity in war time, of enormous interest to Italy.

Though Signor Grandi considers disarmament "perhaps the most important, but at the same time the most difficult problem ever faced by humanity," he indicated he feels "optimism rather than pessimism concerning the outcome of the conference."

POINTS OF CONTACT
"I see no reason to be pessimistic," said the Foreign Minister. "The conversations of the last few months between the interested powers showed, several points of contact exist, though divergencies also are not lacking."

"This is most natural. In fact, it would be unreasonable to expect all the difficulties connected with a problem of the vastness of disarmament to be eliminated with ease in preliminary conversations. Contacts between the chancelleries of the five powers, however, have been highly useful in clarifying reciprocal viewpoints, and placing in evidence the tendencies of the various countries. I have been glad to see, for instance, that American ideas harmonize with ours, as has been the case on several previous occasions."

HOOVER'S SPEECH
Signor Grandi said President Hoover's speech to the American Legion November 11, last, had been especially useful in pointing out the similarity of the American and Italian viewpoints.

"The speech interested me enormously, as it did the whole Italian public opinion," said the Minister. "What clearly struck me was the spirit—the spirit of high idealism tempered by practical ideas."

"President Hoover touched the heart of the disarmament problem, at the same time raising a question of first-rate importance—namely, immunity in war time of ships carrying foodstuffs for belligerents. This question and the vast problem of the freedom of the seas have vital interest for us because the problem of naval disarmament, which we consider purely from the defensive viewpoint, is identified for Italy principally with the problem of insuring supplies necessary for our life."

"Some objection of a technical character has been made concerning the applicability of Mr. Hoover's food ships proposal, but I am convinced that the practical difficulties easily may be overcome once the principle is established. I firmly hope Mr. Hoover's suggestion will find early and wide application."

GREEK CABINETEERS TAKE TALK TO HEART
ATHENS, Dec. 29. (AP)—Two Kandyliot members of the government resigned today because of publication of a letter written by their leader, Gen. George Kondylis, resigned, charging the Venizelos government with leading the country into political anarchy. They are Pericles Argiropoulos, Minister of Interior, and Dr. Pappas.

ICE CREAM TURKEYS
\$2.50
Special at 2 Doves
(Regular Price \$3.50)

PIERCE-ARROW
\$1095
A Re-Perfected Sedan

The New Year is standing at the threshold. Scores of motorists have said to us, "We will be ready to buy a car right after the first of the year."

Should only a small percentage of these motorists come to us to obtain Re-Perfected Pierce-Arrows we would not have enough to supply the demand.

We believe it excellent advice to say to you, "See these Re-Perfected Pierce-Arrows at your first opportunity and enjoy the advantage of obtaining your preference."

A typical value among these Re-Perfected cars is a series "80" sedan, a 1926 model at \$1095. When you see it we doubt if you will find anything to criticize in its finish, appointments, tire equipment, mechanical condition or performance.

Our own shops have Re-Perfected it and offer you a full guarantee with the same degree of free service as we accord a new straight eight Pierce-Arrow.

MAN SLAIN PARADE FIGHT

Among Victims of
Riot and Battle

NEW YORK, Dec. 29. (AP)—A man was slain during a fight between a parade float and a mob of rioters in New York City today. The victim, a man named [Name], was killed by a mob of rioters who were attacking the parade float. The rioters were armed with clubs and stones, and the float was carrying a large number of people. The police were unable to control the riot, and the man was killed. The riot was the result of a dispute between the parade float and the mob of rioters. The man was killed by a mob of rioters who were attacking the parade float. The rioters were armed with clubs and stones, and the float was carrying a large number of people. The police were unable to control the riot, and the man was killed.

NEWS GATHERER LISTS BEST STORIES OF YEAR

NEW YORK, Dec. 29. (AP)—Kent Cooper, general manager of the Associated Press, in a radio talk tonight named ten unusual news stories for the year 1929. He explained to his audience that these stories might not refer to the most important events, because history alone will have to record which events in the year were really the most important.

The ten which he named were, in chronological order:

- (1) The signing of the so-called Lateran treaties between Italy and the Vatican.
- (2) The slaughter of seven individuals in a gang war in Chicago, February 14.
- (3) The death of Marshal Foch on March 20.
- (4) The major catastrophe of the year, which was the fire and explosion in the Clinic Hospital at Cleveland on May 18.
- (5) The trip of the Graf Zeppelin around the world, from August 7 to August 29.
- (6) The wreck of the Transcontinental Air Transport air-liner City of San Francisco on Mt. Taylor September 2.
- (7) The visit of Ramsay MacDonald to President Hoover, in October.
- (8) The outbreak in the Canon City (Colo.) prison, on October 3.
- (9) The collapse of prices on the New York Stock Exchange, which reached its climax on October 30.
- (10) Commander Byrd's flight over the South Pole.

BANDITS ROB PAIR AND PERIL OTHERS

SACRAMENTO, Dec. 29. (AP)—Mr. and Mrs. O. A. Kindblom, proprietors of a hotel here, were robbed of \$300 in jewelry by two masked hold-up men who stole their auto last night and, in a wild dash out the Stockton road forced another auto into a ditch, perilling the lives of Mr. and Mrs. Leitch Robertson. Los Angeles. Mrs. Kindblom was struck on the head by the bullet of a revolver by one of the bandits. Robertson, pinned underneath his car in three feet of water, was rescued by his wife, who was hurled clear of the car.

TEXTILE TRADE INQUIRY URGED

Church Groups Ask Federal
Study of Unrest

NEW YORK, Dec. 29. (AP)—Study of the entire textile industry by the Federal government was urged today in a joint statement issued by national organizations of Protestant, Catholic and Jewish groups. The statement was issued by the Commission on Social Service of the Federal Council of Churches of Christ in America, the social action department of the National Catholic Welfare Conference and the commission on social justice of the Central Conference of American Rabbis. It said that "the disorder and killings which recently have marked the unrest in the textile industry have appalled all who accept the respective ethical teachings of our religions."

AUTOS AT HEAD OF EXPORT LIST

Total Nine Months' Exports
Set at \$3,844,000,000

WASHINGTON, Dec. 29. (Exclusive)—The automobile continued at the head of American export trade for the first nine months of 1929 followed in order by unmanufactured cotton, gasoline, refined copper and agricultural machinery and implements, as shown in a report "Our World Trade" just made public by the foreign commerce department of the Chamber of Commerce of the United States. These five leading export commodities, the "big five," accounted for more than one-third of all exports, which during the nine months period amounted to \$3,844,000,000, or slightly more than 8 per cent greater than for the same period a year ago.

SHE CAN'T TELL HUSBAND FROM HIS TWIN BROTHER

NEW YORK, Dec. 29. (Exclusive)—Marrying a man who cannot be told apart from his twin brother has had pretty Thelma White's curly head in a whirl. Tired of forever trying to distinguish her husband from the exact replica brother-in-law, Thelma has decided to solve the identity puzzle by having her marriage annulled.

Thelma, according to papers in Supreme Court, left off dancing long enough on January 2, 1927, to elope with one of the Stroud twins, Claude and Clarence, who look alike and hoof alike in vaudeville. She believes it was Claude who slipped the ring on her finger, but hopes she won't be too severely examined on this point when the case comes to trial.

The puzzled bride was only 16 years of age. After a year with Claude there was a split and she went back home to mother. There was a reconciliation two weeks later, but their love again was disrupted and Claude went away, never to return. For a time Thelma thought she had a sure-fire way of telling the twins apart. She knew that Claude was passionately fond of pistachio nuts. But one day backstage she saw one of the Stroud twins with a bagful of the nuts and kissed him, but he turned out to be Clarence, whose weakness also was pistachio nuts. That proved too much for Thelma.

WILBUR NAMES SCHOOL SURVEY

Two California Educators in
Group of Thirty

WASHINGTON, Dec. 29. (AP)—The selection of a group of thirty educators to conduct a nation-wide survey of secondary education was announced today by Secretary of the Interior Wilbur.

Selection of the committee, which will co-operate with a group of laymen yet to be chosen, followed the organization of a consulting committee which already has mapped out a plan of action. The educators selected include: Arthur Gould, Los Angeles, and Lewis W. Smith, Berkeley, Cal. SOMEWHAT OF AN APPLE WALLA WALLA (Wash.) Dec. 29. (AP)—An apple 18 1/4 inches in circumference and weighing a pound and a half was grown in W. B. Marr's orchard near here.

PERILS DIMINISH FOR BYRD PARTY

Worst Part of Journey Over for Gould's Geologists

Crevasses to Be Dodged on Return to Camp

Matches From Amundsen's Cache Will be Kept

BY RUSSELL OWEN
Copyright, 1929, by the Los Angeles Times. All rights reserved. This article is published under the title "LITTLE AMERICA (Antarctica)".

Dec. 29. (Exclusive)—A message from Dr. Gould, leader of the Byrd geological party in the Queen Maud Mountains, indicates that the worst part of their journey is over and that when they start back in a few days they will be able to avoid recrossing many crevasses which they went over on the way south.

So far none of them has gone into a crevasse while wearing their skis, although the dogs have fallen through frequently. But most of the crevassed areas are behind them and they know enough about the remaining crevassed territory to work around it.

NOTE RETAINED

"Tell Martin Ronne I will bring him some matches from Amundsen's cache," said Dr. Goulding in his message to Rear-Admiral Byrd. "Also bringing back some small pieces of rock from it. I had already taken the liberty of keeping Amundsen's note. It is almost as precious to me as are my rock collections."

"After the first excitement of finding the cache was over and we had seen what was in it, Freddie Crockett said, 'Gosh, he didn't leave any grub.' It is convenient before we leave we may leave a cache on Mt. Eddy near Amundsen's."

EQUIPMENT PRAISED

"As I look on our trip I cannot help telling you how splendidly all our equipment has worked. Grogg's cook has done his stuff. Tom Mulroy's cans have all come through without a leak and Martin's tents and clothing are still keeping us comfortable. Our rations have been most excellent and everyone is in superb condition. Eddie Goodale is positively fat and try as he will Freddie cannot eat a whole day's ration, so we have accumulated food. By far our best food has been oatmeal with powdered milk for breakfast. The old vacuum jug cooks it perfectly overnight and two bowls make a great breakfast to start the day's work."

"We shall steer well to the east of Liv Glacier going out and hope to pick up our trail later for we have crossed few regions this summer as dangerous as the crevasses there. For the last fifteen miles before the mountains we were crossing them continuously, all kinds of them. We traveled fast there. When dogs fall in they invariably complicate matters by starting to fight even though suspended by their gang line. We are increasingly careful and in general find it safest to exactly retrace our steps."

CLIFF AVOIDED

"When coming down Axel Heiberg Glacier, we came to a suspiciously steep slope and decided to turn back and changed our course. As we came on we saw that we had been near the brink of a great ice cliff some 100 feet high. Though dogs and sledges have often fallen in, not one of us has ever fallen with skis. We agree with Amundsen that they are the most important part of our equipment and we have Mike Thorne to thank for keeping them in excellent condition and teaching us how to handle ourselves on them. Had few falls when climbing steep glaciers with clamps on where skis could not be used but each one has made us more careful. It is literally true that no one has been out of my sight since we left Little America nor will they be until you greet us there."

"Immensely pleased about soundings around camp. Please save me some mud."

Ronne, who was on the Fram on Amundsen's Antarctic expedition, was delighted when he heard about the matches. He had said when he heard of the finding of the cache, "I would like one of those boxes of matches to take back to Norway."

FIVE DIE AS WIND STORM HITS FRANCE

Ships and Houses Wrecked and Normandy Orchard Trees Uprooted by Blast

PARIS, Dec. 30. (Monday) (AP)—Five persons were killed last night in France by one of the most severe storms of the season which was accompanied by a southwesterly gale.

At Havre a crane was blown over and sank the tug Abelle. The crew of three were drowned. Near Hainbrouck two were struck and killed by a huge elm tree uprooted by the storm.

The steeple of a church near Saint-Omer collapsed under the buffeting of the wind and crashed through the roof. Many trees were uprooted in Normandy orchards. Railroads and trolley lines were blocked in many places by fallen limbs and early this morning telegraphic communications were cut off with many outlying districts.

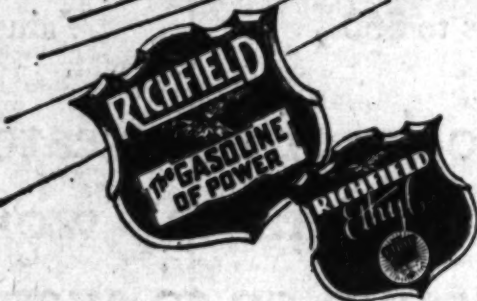

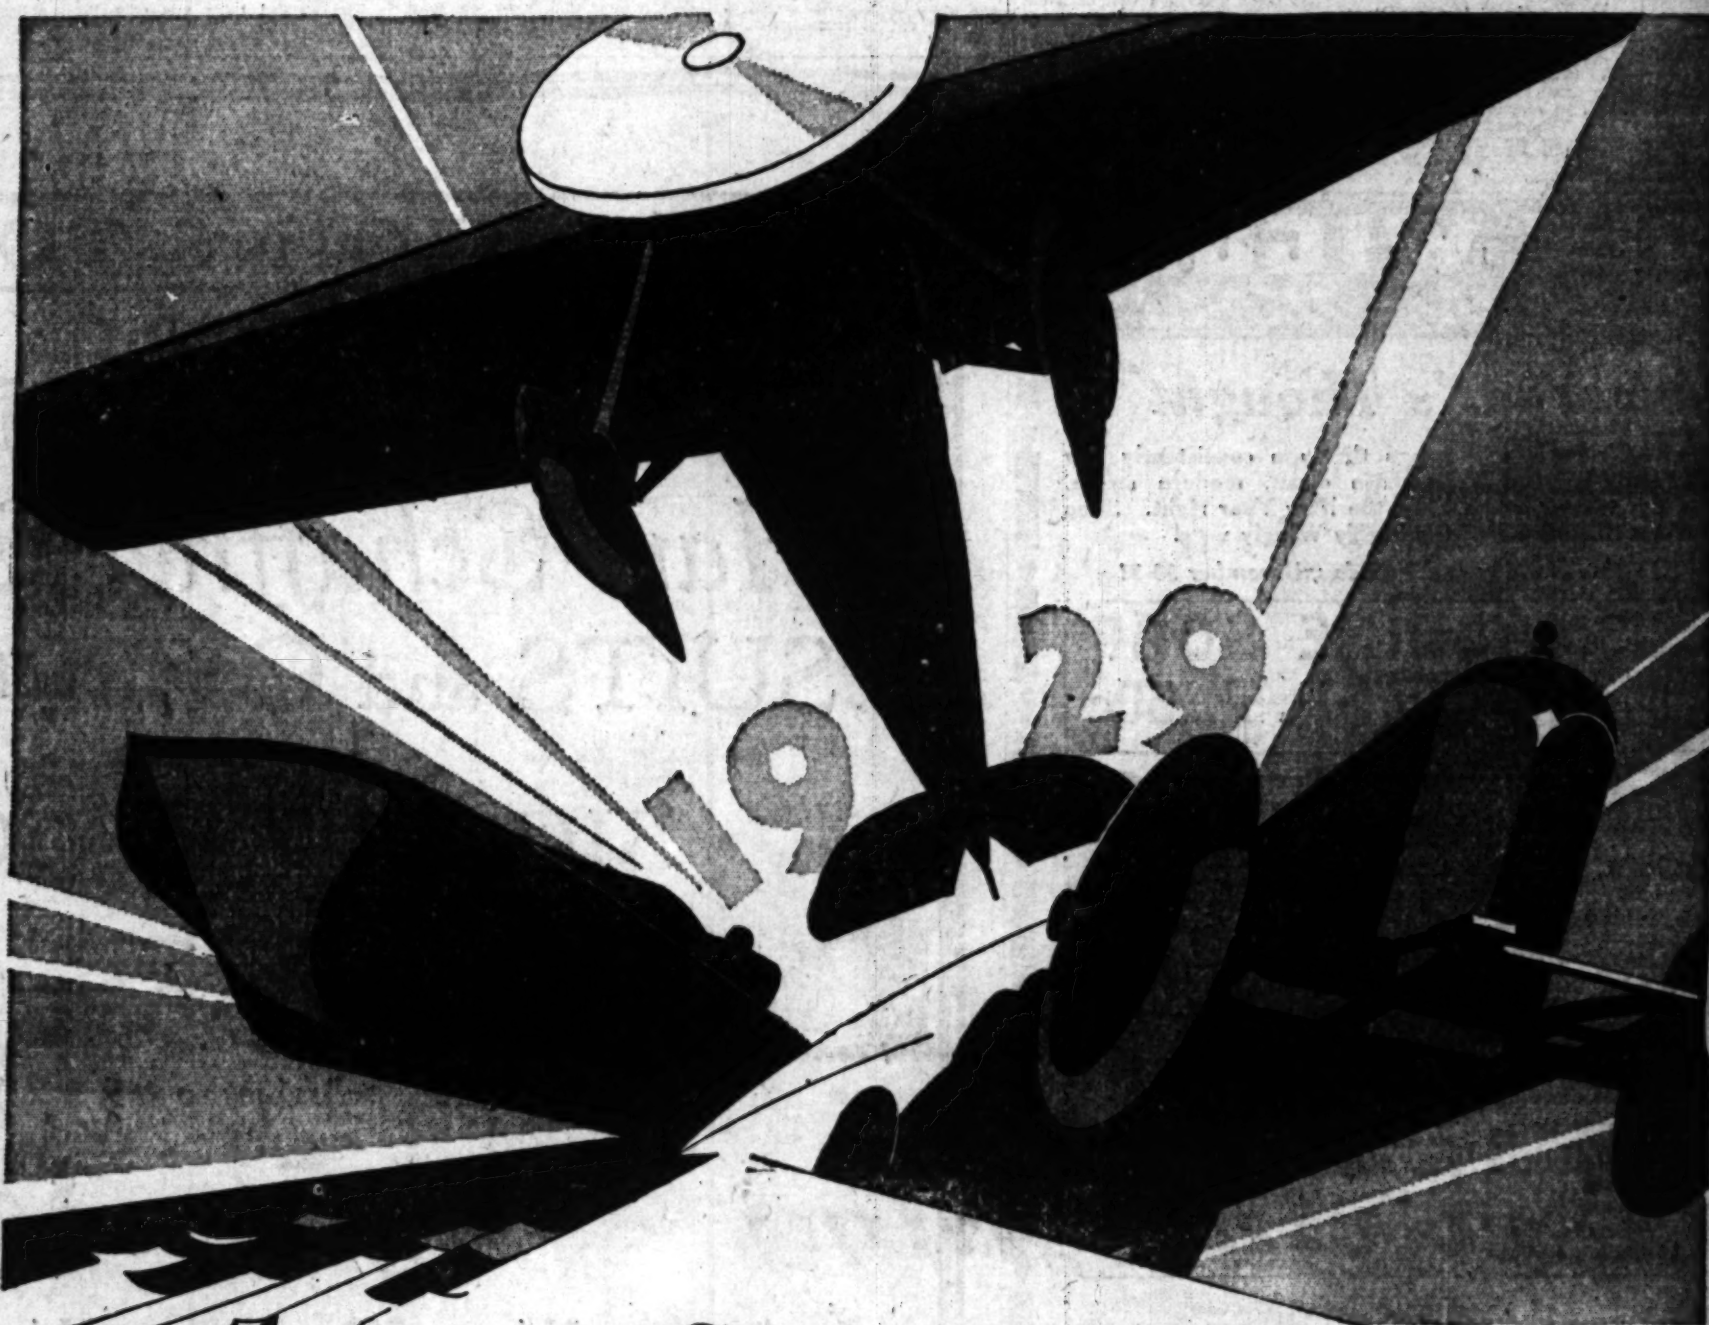

The ports of Western and Northern France were full of storm-bound shipping and all the busy seacoast ships helped before the storm at sea.

GALE IN CHANNEL TIES UP ENGLISH SHIPS

LONDON, Dec. 29. (AP)—A southwesterly gale, with heavy rain, swept the southern part of England last night and early today. The wind reached eighty miles an hour at the Scilly Isles.

English Channel seas, churned to great height, sent shipping scurrying to ports for shelter.

Throughout the Year RICHFIELD wins AGAIN and AGAIN!

SMASHING speedway victories. Magnificent flying achievements. Sensational triumphs on water. World's speed records. World's endurance records. International trophies. Victory following victory month after month throughout the year. The greatest competitive record ever established by any gasoline. Richfield in the past decade, has won more speedway victories and world's records than all other gasolines combined. Its impressive list of achievements during 1929 points the way to an even more brilliant performance for the coming year.

IN THE AIR

The "Question Mark" army flight, first of the great endurance flights breaking all previous distance and duration records was made with Richfield. Bobbie Trout used Richfield gasoline when she brought back to the West the World's endurance record for Women. The solo endurance record of Herbert J. Fahy was another triumph for Richfield as was the sensational "Angeleno" endurance flight made a few weeks later. When Tex

Rankin completed the first official Canada to Mexico flight he made a fuel economy record of 18 1/2 miles per gallon with Richfield. Norman Goddard also made a unique record with the "Gasoline of Power" by winning 26 events in local air meets throughout California. Among Richfield's most famous achievements in the air are its records during the National Air Races; in the spectacular transcontinental non-stop flights of Art Goebel and Captain Wilkins 2300-mile dash across the North Pole, perhaps the most hazardous flight in the annals of aviation.

ON LAND

Here are a few of the Speedway stars in the Richfield firmament for 1929:—Lou Meyer—1928-1929 National A.A.A. Speedway Champion and winner at Altoona, Pa.

—used Richfield. Cliff Woodbury—the winner at Detroit—used Richfield. Glenn Shultz—driving a Stock Studebaker President 8, winning the Annual Labor Day Pikes Peak Run—used Richfield.

At Los Angeles, Detroit, Altoona, Woodbridge, Syracuse, Bridgeville—wherever roaring motors slant around a speedway—"Richfield Wins Again."

ON WATER

Richfield piled up an impressive list of victories in the racing regattas this season. Palm Beach and Sarasota saw two triumphs for the "Gasoline of Power"; at Mt. Dora, new world's records with Richfield gasoline in both the limited and unlimited class 151 hydroplanes. At Southampton, England, Ralph Snoddy, using Rich-

field gasoline, won the famous Duke of York trophy and followed this triumph with a new world's record for 1 1/2 litre hydroplanes at Balboa, California. In the Outboard class, Richfield won new laurels when H. G. Ferguson established a new world's record of 49.165 m.p.h., the fastest time ever made by an outboard motor.

RICHFIELD

RAILROADS EARN RECORD PROFITS
Operating Income for Year \$1,322,000,000
Returns 4.99 Per Cent on Capitalization
Attributed to Unusual Freight Volume
WASHINGTON, Dec. 29. (P)—Net income of the country's railroads for the past year was public today by the Interstate Commerce Commission. The report shows a total of \$1,322,000,000, representing a return of 4.99 per cent on the \$26,480,000,000 of capitalization, the highest in ten years.
The report also shows that the railroads' operating income for the year ended June 30, 1929, was \$1,322,000,000, or 4.99 per cent on the capitalization. This is the highest operating income ever attained.
The report also shows that the railroads' operating income for the year ended June 30, 1929, was \$1,322,000,000, or 4.99 per cent on the capitalization. This is the highest operating income ever attained.

ORTIZ RUBIO QUILTS CAPITAL
Mexico's President Leaves for Buffalo After Visit by President Hoover and Son
WASHINGTON, Dec. 29. (P)—Pascual Ortiz Rubio, President-elect of Mexico, boarded a special car for Buffalo today after a personal call from President Hoover and Allan Hoover at the Mexican Embassy had marked the last official social function of his stay in Washington.
Bearing gifts for the children of the President-elect and those of the Ambassador, President Hoover, his aide, and his son, called at the Embassy shortly after noon. They remained about fifteen minutes exchanging farewells with the President-elect and his party.
ISSUES STATEMENT
Just prior to boarding his special car at the union station the President-elect issued a statement expressing complete satisfaction with his visit, and gratitude for the many courtesies shown him during his four days in the capital.
"On leaving Washington," he said, "I take with me the sentiments of such great cordiality that I cannot but feel confident that the future relationships of the governments and peoples of Mexico and the United States will be the source of a mutual co-operative understanding beneficial to the world aspirations for peace and harmony."
With Senora De Ortiz Rubio, the three children who accompanied them here, and members of his official party, the President-elect expects to remain in Buffalo, N. Y., several days. He will take advantage of his stay there to visit Niagara Falls and his great electric generation.

SPAIN PROMISED REVISED REGIME
Primo de Rivera Says Old Dictatorship Decaying
King Studies Plans to Alter Form of Government
New Administration Will be Radically Different
MADRID, Dec. 29. (P)—In an article in the Madrid newspaper A. B. C., Gen. Primo de Rivera, head of the Spanish government, declares his dictatorship begins to show signs of decay and it will be necessary during 1930 to replace it by some other regime which will act as a connecting link between the dictatorship and the future government.
The Premier did not say when the change will be made, but asserted that the new regime must be radically different from his six-year-old government.
He added that King Alfonso is at present studying the plans to alter the form of government and his decision will be made public shortly.
Prediction that De Rivera's government will come to an end September 13, 1930, is made by Jose Cuartero in his annual resume of political events in Spain. Cuartero is a prominent Madrid journalist.

WATERING MILK AN OLD IDEA
Drop Fat in Each Pail To Frighten Spirits But They're Too Large
FLORENCE (Italy) Dec. 29. (P)—An old superstition which caused farmers of a district near here to add a drop of water to each pail of fresh milk lest the cow sicken and die has been attacked by food inspectors. The latter asserted that some of the drops were too voluminous.
English Church Broadcast Fails
NEW YORK, Dec. 29. (P)—The National Broadcasting Company today announced that the scheduled broadcast today of a forty-five-minute service from Canterbury Cathedral in England was prevented by heavy gales which swept away the aerials of GBSW, the short-wave transmitter of the British Broadcasting Corporation at Chelmsford, Eng.
The program was to have included an address by the Archbishop of Canterbury.

SOVIET ORDERS HUNT EXTENDED
Stavropol to Send Out Two Eielson Expeditions
Wrangell Island Colony to Look for American
Canadian Flyers Fitting Up Planes to Join Search
MOSCOW, Dec. 29. (P)—The Soviet government today intensified its search in several directions for Carl Ben Eielson and Earl Borland, American aviators who have been missing for nearly two months off the Northern Siberian coast.
The Arctic committee has ordered Capt. Milovozov of the Soviet steamer Stavropol, now frozen in the ice in the vicinity of the section over which the American aviators were flying, to send two search parties. One will explore the region seventy-five miles west of Cape North and the other will search the coastline as far as Killuchinsk Bay.
The Russian colony on Wrangell Island also has been instructed to send out two search parties toward Cape North. Radio stations on Wrangell Island and the Stavropol were instructed to issue daily meteorological bulletins for the assistance and guidance of both the Soviet and American expeditions.
CANADIAN FLYERS RUSH PREPARATIONS
FAIRBANKS (Alaska) Dec. 29. (P)—Extreme low temperatures prevailed over the Northland today as the Canadian flyers rushed preparations to take off for Nome and Teller, Alaska, to engage in the search for Pilot Carl Ben Eielson and Mechanic Earl Borland, missing in Siberia since November 9.
The three Fairchild planes which the Canadians will use have been put through preliminary test flights and the aviators, headed by Chief Pilot Pat Reid, expect to take off for Bering Strait points Tuesday.

A Simple Way To Pay Christmas Bills

MAKE those small sums you would otherwise spend thoughtlessly pay for your gifts next Christmas. Join the 1930 Union Bank Christmas Club today. Make a small weekly deposit—an amount easily spared and never missed. Next Christmas you can pay cash for everything you give. You can do it with amounts as small as 5c...10c...15c a week...a class for every purse. Write your name on this advertisement, mail it to us, and we'll send you full details.

A CHUCKLE FOR EVERYBODY

THE SON OF TARZAN

By Edgar Rice Burroughs

GASOLINE ALLEY

Let Nature Take Its Course

The feet of the long spear shaft in his hand and the sight of the lion's head beyond the tree gave the lad an idea. It was a forlorn hope, but his only chance. So, not waiting for the beast to charge, to the astonishment of Akut, he leaped swiftly toward the crouching lion. For a brief second was the lion motionless with surprise, and in that moment the son of Tarzan used an accomplishment of his school days, this time to save his life.

Straight for the savage brute he ran, his spear held but foremost across his body. Akut shrieked in terror and amazement. The lion stood with wide, round eyes awaiting the attack, ready to rear upon his hind feet and receive this rash creature with blows that could crush a buffalo's skull. Just in front of the lion the boy placed the butt of his spear upon the ground. Before the bewildered beast could guess the trick it was too late.

For the boy gave a mighty spring and sailed over the lion's head into the thorn tree—safe, but bruised. Akut had never before seen a pole vault. Now he leaped up and down within the safety of his own tree screaming, faints and boasts at the discomfited Huma. The boy, torn and bleeding, waited a full hour before the angry brute gave up his vigil and strode majestically away. Then he came down from his painful position.

Several days the boy and the ape roamed. The great anthropoid licked the tortured flesh of his human friend, lacerated by the tree's sharp thorns, and it soon healed. But never again did the son of Tarzan uselessly tempt fate. When he felt fit once more, they continued on to the coast and at last his much-dreamed-of moment arrived. Passing through the tangled forest he discovered something that set his heart leaping for joy.

MINISTER QUILTS REFORMS GROUP
Watch and Ward Society Rift Reported
Cambridge Immoral Book Case Involved
Bishop Said to Be Opposed to Prosecution
BOSTON, Dec. 29. (AP)—The Boston Herald tomorrow will say it has learned from a reliable source that Rt. Rev. William Lawrence, retired Episcopal bishop of Massachusetts, has resigned from the board of directors of the Watch and Ward Society and that the resignation will be acted upon at a meeting of the board January 13.
The Herald also will say Bishop Lawrence regards with ill favor the methods used by the society in bringing about the prosecution of the owner and a clerk of a Cambridge book shop for selling an assertedly immoral book.
The case in question started last August, when James A. De Lacy, proprietor of the Dunster Bookshop, sharply patronized by Harvard students, procured and sold five copies of a book. Two months later John T. Slaymaker, agent of the society, using an alias, purchased a copy of the book for \$15 and after trial in District Court De Lacy and his clerk, Joseph Sullivan, were convicted of selling an obscene book. De Lacy was given four months in jail and fined \$500, while Sullivan was given two months and fined \$200.
The sentences were appealed and another trial was held, without a jury, before Judge W. Foedick in Superior Court. They were convicted again and De Lacy was given one month in jail and fined \$500, while Sullivan's case was filed.
The court deferred sentence for six weeks to allow counsel time to file appeals to the Supreme Court.

Pioneer Range Pair Celebrate
DEWITT (Iowa) Dec. 29. (Exclusive)—John M. Jacobs, 56 years of age, Buffalo hunter, Indian trader and guide long before the days of Buffalo Bill, and his wife, celebrated their sixty-fifth wedding anniversary here today. She is only a few years younger than her husband and both are in excellent health.

LOOK TWO WAYS
at your Investments
JANUS, the ancient Roman god of beginnings and endings (for whom January was named) wisely looked in two directions... applying the experience of the past to the plans for the future.

How much of 1929 have you left? Here is how to make 1930 count

How much of the energy you put into 1929 has been crystallized into profitable investments for your future welfare? Check the money you invested during the past year. Has it paid dependable dividends... safely? Or has it meant constant worry... uncertainty... actual loss?

If you had placed your 1929 investment funds in STATE MUTUAL Certificates they would have been completely safe, always worth full par value, dependably returning you a 6% income. These Certificates... issued in multiples of \$100... are secured by loans on homes and guaranteed by the entire resources and conservative policies of this old association.

Through forty years, prudent investors have been making STATE MUTUAL Certificates the foundation of successful investment plans.

May we give you full details with our latest financial statement?

GUARDS AND VICTIM IN RIVER SLAYING
Mistaking Speed Boat for Run Runner Ends Tragically
SAN FRANCISCO, Dec. 29. (AP)—Three Coast Guardsmen were arrested today in connection with the slaying of a man in a speedboat on the San Francisco Bay. The victim, a man named...
The guardsmen, Rudolph Thompson, Asa Ennis and Orville La Grant, said they suspected the speedboat was a run-runner and fired only when it refused to halt. They are under technical arrest at the Coast Guard station and will surrender to the city police tomorrow for arraignment.
It is probable the men will be released on bail and that an adjournment of tomorrow's hearing will be obtained by the United States Attorney who will defend the government men. In such case District Atty. Guy B. Moore has said he will present his evidence to the grand jury in an attempt to get indictments.

LEO KELLEY MAKES PLEA NEXT MONTH
Prison Board Sets Date to Hear Parole Request of Mrs. Mellus's Slaying
SAN FRANCISCO, Dec. 29. (Exclusive)—Application for parole for Leo P. Kelley, Los Angeles slayer of Mrs. Myrtle Mellus, will come before the State Board of Prison Directors today at San Quentin, where Kelley is serving a one-to-ten-year sentence for manslaughter in connection with the slaying. At that date for consideration of the case, Kelley is eligible for parole because of the time he passed in condemned row at the prison before he was resented on the demand of the State Supreme Court. Five convicts were paroled by the board today; two others were ordered deported and the cases of nine were postponed. Applications of fifty-nine were denied.

PICNICKER KILLS MAN IN QUARREL
Rancher's Wife Wounded and Baby Beaten by One of Motoring Party
SAN DIEGO, Dec. 29. (AP)—Francisco Guzman was shot and killed, his wife was shot in the leg and their 3-month-old baby badly beaten in a fight at Guzman's ranch, four miles south of Tijuana, in Lower California, today.
One of two young American men who went to the ranch with a young girl is asserted to have done the shooting, following a quarrel with Guzman over a 50-cent charge he desired to make for the use of his grounds as a picnic place by the party. Mrs. Guzman rushed to her husband's assistance after he had been shot and fought the party, still holding her baby in her arms until disabled, when the car sped away to Tijuana.
One of the Guzman children described the party's automobile as a green coupe with wire wheels. The man who is said to have killed Guzman left a hat behind with the initials "M.A.C." On other information officers believe the car belongs in Los Angeles.
American officers are assisting in the search.

SOME LAWS HELD TO BE ILLUSIONS
Dr. Butler Says Cry for Enforcement Reflects Demand of Fanatics
NEW YORK, Dec. 29. (AP)—In his annual report as president of Columbia University, Dr. Nicholas Murray Butler today said that "not everything which comes clothed in the garb of law is really law."
"Unbroken human experience," he said, "goes to prove that a man may hold one law in utter contempt and yet have high respect for the great body of law."
There are two other modes of social control which are superior to law, he asserted, explaining: "The first is the conduct and manners of a gentleman, and this includes the second, which is conduct according to the highest standard of morals."
The "widely heard cry for law enforcement," Dr. Butler stated, "usually reflects merely the demand of the fanatic for the punishment of violators of some particular law in which he is interested."
Dr. Butler made no explicit reference to prohibition.

GAS FUMES KILL CHILD AND WOMAN
Twenty-four Overcome; Score More Feel Effects as New York Heater Leaks
NEW YORK, Dec. 29. (AP)—A woman and a 17-month-old child were killed today and twenty-four persons overcome by gas, which leaked through a broken connection on a hot-water heater and spread through a five-story apartment-house on the upper West Side.
More than a score of persons were partly overcome.
The dead were Pinda Schneider, 17 months of age, daughter of Mrs. Lora Schneider, whose parents lived in a basement apartment, and Mrs. Mary Arroyo, 38, who lived on the first floor.

Local Youth Arrested With Bunko Suspect
BALTIMORE, Dec. 29. (AP)—A nation-wide investigation of a man representing himself to be a Protestant Episcopal minister was started by Baltimore police today following upon the search of trunks of a man and two boys arrested here yesterday for Dunkirk (N. Y.) police.
The man said he is Howard McAllister, 39 years of age, and the other two who represented themselves to be his sons, are Milton Baumgartner, 17, and Donald Craig, 19, both of Los Angeles.
The contents of four trunks belonging to the man led them to suspect he had operated a swindling game all over the United States. The two boys told detectives they had been picked up by McAllister in Los Angeles. The boys are being detained here for further questioning and to await replies to telegrams sent to Los Angeles.

PARLIAMENT OF FRANCE GIVEN Delayed Recess
PARIS, Dec. 30. (Monday) (AP)—Premier Andre Tardieu sent Parliament home to a belated Christmas vacation at 3:40 a.m. today when he read a closure decree. Budget discussion will be resumed on January 14, next.
Consideration by the Senate of tax reductions voted by the Chamber yesterday necessitated the late session since the Premier was desirous of an adjournment to permit the ministers to prepare for the coming reparations conference at The Hague.

GRADE-CROSSING TOLL REPORTED
Total of 2179 Accidents Occur in 1928
Alameda County Leads List, Los Angeles Second
Statistics Compiled by Railroad Commission
SAN FRANCISCO, Dec. 29. (Exclusive)—Statistics compiled by the transportation division of the Railroad Commission's engineering department disclose 2179 accidents on 12311 grade crossings in the State during the year 1928. Alameda county led the list with 562 accidents on 1149 crossings with a percentage of 48.9, and Los Angeles county was second with 443 accidents on 2924 crossings, or a percentage of 29.8 per 100 crossings.
Counties in which accidents occurred, with their percentages, are: Alameda, 48.9; Butte, 43.3; Colusa, 2.8; Contra Costa, 8.4; Fresno, 11.0; Glenn, 1.1; Humboldt, 1.2; Imperial, 10.3; Kern, 10.3; Kings, 8.7; Lassen, 2.8; Los Angeles, 29.8; Madera, 6.1; Marin, 2.8; Mendocino, 1.9; Merced, 9.6; Modoc, 4.0; Monterey, 12.3; Napa, 2.3; Orange, 9.0; Placer, 16.0; Riverside, 6.2; Sacramento, 11.6; San Benito, 4.8; San Bernardino, 8.9; San Diego, 4.7; San Francisco, 36.4; San Joaquin, 15.3; San Luis Obispo, 7.4; San Mateo, 19.8; Santa Barbara, 11.2; Santa Clara, 21.5; Santa Cruz, 6.3; Shasta, 9.1; Siskiyou, 2.3; Solano, 7.9; Sonoma, 8.1; Stanislaus, 7.8; Sutter, 3.4; Tehama, 10.0; Tulare, 6.1; Tuolumne, 2.6; Ventura, 6.7; Yolo, 6.0; Yuba, 1.7.

The Times Resort and Travel Bureaus
MAIN OFFICE—CORNER FIRST AND BROADWAY
are for the accommodation and board of persons seeking interesting routes of travel: desirable hotels and apartments, attractive eating places, or rest, recreation and recuperation at mountain, seashore or desert resorts and hotels. COUNTY CLERK IN HUGE TASK

Orange County Prepares to Register 55,000 Voters

Deputy Registrars to Be Sent Out Total 150

Special Staff of Clerks to File and Sort Records

SANTA ANA, Dec. 29.—Anticipating a registration of 55,000 voters in 1930, County Clerk J. M. Backs will send approximately 150 deputy registrars into the field immediately after January 1, next, to commence the biennial task of registering voters for the election of 1930 and 1931, he announced today.

Every hamlet and rural center of the county will have registration facilities brought to its door in the form of one of Backs's deputies, while the cities also will be liberally supplied. It became evident as the County Clerk prepared to shoulder the gigantic burden that falls upon his office every other year.

No, only will the registration machinery spread out to all parts of the county, but it will likewise hum busily at the hub of operations in the clerk's office where a special staff of clerks will be engaged in sorting and filing registration records.

Adding to the immensity of the registration task is the fact that 1930 is election year, with county and state primaries, and general elections for the clerk's office to handle.

Backs estimates that the last county registration total of \$1,077, compiled in 1928, will be increased by at least 4,000 next year, the 55,000 registration total indicating a population of not less than 137,000.

In registering, voters should remember to state party affiliations if they wish to take part in party primary elections. Backs reminded the electors today. Under California election laws, he said, if a voter fails or refuses to state his party he is registered as "declines to state," and is not eligible to vote at a primary election, which is strictly a party affair. Voters declining to state party affiliation thus can take no part in the nominating of candidates.

Girl Locked in Store Basement by Bold Bandit

SAN DIEGO, Dec. 29.—Mabel Bradley, pretty 22-year-old salesgirl in Wright's Candyland store at 415 Broadway, is recovering today from severe shock induced from her experience last night when she was forced into the basement of the store and locked in by a bandit who later rifled the cash register of about \$50.

Miss Bradley told Harry Kelly, lieutenant of police, and William J. O'Connor, detective sergeant, that the robber, believed to be a Mexican, entered the store and indicated he wanted to make a purchase, but as she started to go to the counter the man quickly informed her it was a hold-up, and for her to go into the back room and remain quiet. The young woman refused to do so, and the bandit forced her into the basement. As he came from the door he locked the door and ransacked the cash register.

The bandit was described as being about 25 years old, five feet five inches tall, weight about 125 pounds and clad in a dark sweater and dark trousers. Because the bandit had such a dark complexion Miss Bradley said she thought he might be a Mexican.

The robbery, in the heart of the downtown business area, was the most daring staged here in several months.

Hot Springs Now Concentrated in One Driven Well

ARROWHEAD SPRINGS, Dec. 29.—Concentration of more than 100 flowing hot springs into one man-made well drives hundreds of feet into the solid granite of Arrowhead Mountain has just been completed at the Arrowhead Springs hotel here, it was announced today by R. W. Larritt, manager. The resultant tremendous flow of 180-degree water is more than sufficient to supply hot water and heat to the large hotel and adjacent bungalows occupying this 1800-acre estate.

Larritt declares this to be the most unique hot-water and heating system in the country. Constantly flowing hot water, always at an even temperature, comes from the concentration of springs and several large overflow pipes carry off the surplus which is used for irrigating the tropical plants and flowers on the estate.

BEACH TRIO IN RUM NET

Woman and Two Men Arrested in Spectacular Raid at Redondo Beach

REDONDO BEACH, Dec. 28. (Exclusive)—Three persons, one a woman with a 1-year-old baby, were taken into custody by local police here in a spectacular raid upon what is believed to have been the largest liquor plot ever unearthed here.

The haul netting more than 300 gallons of assorted liquor and a mixing plant was taken at 727 S. Main in the most exclusive residential section of the city. The manner in which the liquor was packed in sacking led officers to the theory that an aging scheme on the beach adjoining the house was in process.

The woman, who gave her name as Mrs. Ramsey L. Williams, 25 years of age, has been released on

"DISHONOR AMONG THIEVES" BEE GOLD REAL CASH FOR OWNER

Jealousy Flames Between Three Brothers, Resulting in Betrayal of Their Hiding-Place to Police

PASADENA, Dec. 28.—Jealousy between three brothers who are asserted to be infatuated with the same woman resulted today in a spectacular raid upon a hillside residence at 6228 Bertha street, in the course of which an escaped convict was captured, and his brother and a young woman arrested on suspicion of violating the Mann Act. The recaptured convict is Elmer Weber, who escaped from San Quentin penitentiary a year ago while serving a thirteen-year term for burglary, according to Detective Lieutenants Harry Thomas and Edward Ewing, who made the raid assisted by Highland Park police. Fred Weber and his 23-year-old companion, Miss Jennie Hamilton, were taken into custody on suspicion of violation of the Mann Act. Clyde Weber the third brother, was released after questioning.

COUNTY TO AUTHORIZE PLAN BODY

Orange Supervisors Pass Measure for Commission; Takes Effect in January

SANTA ANA, Dec. 29.—An ordinance which the County Board of Supervisors passed Tuesday creating a county planning commission, will go into effect thirty days from this date, according to County Clerk J. M. Backs, already prepared and listing the personnel of the commission, is scheduled to be adopted when the ordinance goes into effect. The list is subject to change, it was stated. Those listed and the terms for which they will serve are:

Mrs. Clara Cushman, one year; Marvin Ross, one year; R. T. Thompson, two years; J. W. Briggs, three years; Walter Bingham, four years; and three ex-officio members, Z. B. West, District Attorney; H. H. Neff, superintendent of highways; and W. K. Hillyard, County Supervisor.

The ordinance creating the commission provides that the members must meet once a month and that they serve without pay. The functions of the commission include: the recommendation of the future growth, development and beautification of the county in respect to its public and private buildings, streets, parks, grounds and vacant lots.

Other provisions of the ordinance relate to the commission's powers with reference to sanitation, the proper service of utilities and to recommendations which the commission may make to public authorities or corporations with reference to locating buildings. All maps of proposed subdivisions must first be submitted to the commission, the ordinance provides.

Local Record of Mail Handled in Postoffice Set

GLENNDALE, Dec. 29.—Tabulation of the Christmas mail handled by the local postoffice shows that more than 1,000,000 letters and cards were received there during the yuletide period and the cancelling machines showed that some days the number ran in excess of 100,000 pieces of outgoing mail. Postmaster Edwin F. Heiser estimates the ratio of incoming mail as three to one for outgoing mail, much of which passes between here and Los Angeles because of the intricate business relations between the two cities.

Heiser expects still more Christmas mail during the congestion and delay caused by the snow storms in the Midwest region of the country.

The total number of incoming packages handled by the postoffice staff during the Christmas rush amounted to 35,617, setting a new local record.

Installation of Officers Held

VENTURA, Dec. 29.—Ventura Post, Veterans of Foreign Wars, ended its first year of existence Saturday night, when 1930 officers were installed at the L.O.O.F. Hall. The installing officer was Department Commander Charles Hildebrand, head of the California and Nevada divisions. The degree team from Lewis Kenneth Bell Post of Pasadena, initiated the "recruits." Officers installed were: Commander, Guy J. Gake of Oxnard; Senior Vice-Commander, George Knevel of Ventura; Junior Vice-Commander, John Fitzpatrick of Saticoy; Quartermaster, J. J. Morgan of Oxnard; Chaplain, Charles L. Hill of Ventura; Officer of the Day, Petty Officer of Santa Paula; Judge Advocate, Carl Wallace of Ventura; Post Historian, Ben McCallister of Ventura; Post Surgeon, Dr. Will J. Lewis of Ventura; Guard, David McClung of Ventura, and Trustee, Frank Knefel.

SCHOOL GETS CAFETERIA

NORTH HOLLYWOOD, Dec. 29.—The Los Angeles School Board has approved plans for the building of a lunch cafeteria for the Bakman Elementary School here. A structure 32 by 48 feet, with kitchen equipment, is one of the plans of buildings proposed.

Mexican Family to be Deported

UPLAND, Dec. 29.—Miss Andrade, wife and four children, who probably take a sea voyage next month, without cost to themselves. They will board a Mexican government steamer to San Pedro and go back to Mexico, and they will not be allowed to come back to the United States. "Because Blas possessed a still, and the officers found it."

Andrade was arrested here November 18 on a still possession charge. Take into Superior Court he changed a plea of not guilty to guilty and asked probation.

Stipulation with the probation plea was that Andrade be deported with his family to Mexico. P. A. Fleigler, Los Angeles Mexican Consul-General, told Superior Judge Charles L. Allison he would be responsible for having the Andrade family placed on the government boat, one of which is expected at San Pedro early in January.

The work of ten major institutions of higher learning in Southern California is reviewed in the Annual Midwinter Number, out January 2.

BEE GOLD REAL CASH FOR OWNER

San Bernardino County's Apiaries Produce Total of \$140,500 This Season

UPLAND, Dec. 29.—Busting little bees of San Bernardino County kept busy during the present honey harvest season which just closed.

According to William Atchley, San Bernardino county bee inspector, and widely known honey producer of this city, the county's bees produced 1,500,000 pounds of honey, which netted the producers \$140,500.

The season just closed was one of the shortest in history of local county apiary activities, but the bees made up for its brevity by an increased activity in honey production according to Atchley. In the county are 144 apiaries, housing 48,897 bee colonies. The bees are valued at \$600,000, and equipment of the bees men is valued at \$60,000.

In the past year the bees produced 25,000 pounds of beeswax, which held a value of \$60,000. A total of 3400 parcels of bees sold netted \$12,000, and 10,500 queen bees were raised and sold for \$875.

The season on honey was cut short because of the long hot dry summer. Diseases among bees of San Bernardino county have been practically eliminated by strict inspection and respiratory methods, according to Atchley.

American and European foul brood are diseases most common among bees, and it is these which Atchley battles most in his local inspections. Several hives of bees found to be diseased infected were burned.

Inquests Held on Two Holiday Fatal Accidents

OCEANSIDE, Dec. 29.—Inquests conducted here yesterday on two Christmas traffic fatalities resulted in a verdict of careless driving by Frank Plank of Carlsbad in the death of William McBride, 20 years of age, sailor of the U.S.S. McVie.

Plank was killed Thursday night on the inland highway near Vista. Plank stated that he slowed down as he approached the intersection and started to turn right when he saw the auto driven by Tom Williams approaching at an asserted high rate of speed he swerved to the right side of the road and was struck head on.

Plank was killed through the windshield. Mr. and Mrs. Plank lived at Carlsbad. McBride was killed Thursday six miles north of here in an accident involving two autos and a motorcycle.

He was riding south on a motorcycle and was killed through the windshield. Mr. and Mrs. Plank lived at Carlsbad. McBride was killed Thursday six miles north of here in an accident involving two autos and a motorcycle.

THREE BLAZES IN CORONA

Business District Menaced When Fire Rages; Hog Ranch, Stock and Rare Linens Also Burn

CORONA, Dec. 29. (Exclusive)—Three fires, one of which for a time menaced the business district, broke out almost simultaneously here today, confounding the volunteer fire department and causing damage estimated variously at from \$25,000 to \$40,000.

The most disastrous blaze of the trio destroyed completely the one-story building fronting on both Seventh and Ramona streets, in the heart of the town, and occupied by Graham's Garage, the Dodge and Hudson r d Essex automobile agencies, the American Railway Express, the Pickwick Stages and the Los Angeles Times agency.

In the other two fires the large barn on the McClintock ranch, at the city limits, and the home of Louis Saxe were destroyed.

The first blaze, which sounded about 1:20 p.m., sent the fifty volunteer firemen scurrying to the McClintock barn. While they were battling valiantly to save the structure from complete destruction the explosion of an oil stove in the one-story bungalow occupied by the Saxes, a recent bridegroom, and his wife, resulted in another alarm.

Tarrying only long enough to prevent the burning barn, from igniting surrounding brush and spreading, the volunteers gathered up their four lines of hose and retraced their steps to Saxe's house, one mile away, in the direction of the town.

The bungalow fire had gained much headway, however, that the apparatus practically was useless, the flames reducing the dwelling and its contents to rubble. The house, valued at \$3000, is covered by insurance, but \$10,000 worth of imported linens, uncovered, also went up in smoke.

LINENS HAND-MADE The linens were made by Mrs. Saxe, the couple explained, before she left Slavonia to come here to marry Saxe. It required ten years of labor to complete the lot which, it is understood, she intended to use in establishing a business here.

While the firemen were fighting the flames consuming Saxe's bungalow another alarm sent them into the business district to tackle the third fire, which is reported to have originated in Graham's garage from a spontaneous combustion. In this fire an undetermined number of used and new automobiles were lost by the garage and the car agencies, as well as a valuable amount represented by packages stored in the American Railway Express agency. Records in the Pickwick Stage depot were destroyed, but those of The Times office were saved.

The city marshal is making an investigation. Owing to lack of water firemen were powerless to make any headway against the flames at the McClintock ranch which consumed the hog ranch and the stock and were destroyed, but those of The Times office were saved.

OIL and MINING IN THE EARTH

NEW OIL CUSTOMER LOOMS

Large Contracts Made Recently by Japanese Agents in Los Angeles Significant

That the California oil industry will be called upon during the next few years to supply a great deal of the petroleum used in one form or another by Japan, is indicated by the fact that Japanese agents are in Los Angeles making contracts for millions of barrels of crude.

While no announcement to that effect has been made, it is believed by local marketers that Japan's entry into California as a heavy purchaser of crude for future delivery is based upon a reported commercial deal between Japan and Russia.

When asked why his company did not buy its crude from Russia, E. G. Kojima, president of the Doi Kosen Company, Ltd., of Osaka, Japan, stated yesterday that his company has just bought 800,000 barrels of crude from the Union Oil Company of California for delivery in 1930 in Union tanks.

The company has large storage plants at Shimozu and other points, and is reported to be going into the petroleum business on a large scale.

According to Mr. Kojima, his company is putting up a combination of oil refining and cracking refinery, and installing a big distilling service station, with the expectation of utilizing at least 300,000 and perhaps 500,000 barrels of California crude per month in the new plant. The company, he says, will buy all kinds of petroleum, from light, refinable stuff, to the rather heavy grades, and will use the latter for asphalt to be used in road building.

According to Mr. Kojima, the consumption of Japan has been doubling itself every four years. The use of motor vehicles is chiefly responsible for this condition, he asserts.

The Japanese Navy has for many years been a heavy buyer of California oil, particularly fuel, and several imports of Japanese oil companies have for some time depended upon Southern California for their fuel oil. Now the Japanese are looking to the United States for their crude to make gasoline and diesel oil, and for the asphalt with which to build thousands of miles of paved highways.

MARICOPA FLAT BOOSTS OUTPUT

Five Projects Brought in by Different Operators

Total Initial Production of Group 9000 Barrels

Addition Adds New Puzzle to Curtailment Program

MARICOPA, Dec. 29. (Exclusive)—Completion of five new wells on the Maricopa Flat during the last ten days has added an initial output of 9000 barrels a day to the field's output, and has given the oil operators a new production problem which is expected to result in another curtailment program within a few days.

Five different operating companies each finished a good well on a wind-up for the year's work. One well went as high as 3500 barrels, two others did 2500 barrels each, another did 650 barrels, and the fifth put out 180 barrels a day. The biggest wells already have been pinched in to some extent.

Reports of the various operators holding acreage near Ohio's producer indicate that the movement to remove the district to permit drilling is well organized. Pending the reasoning of property there, locations for new wells will probably not be made.

One of the first companies expected to stake a location is the Cypress Petroleum Corporation. The company's twenty-acre lease is a direct offset to Ohio's completion and is in a favorable location, to the southwest of the Ohio well. A third of this lease is owned by Roddey McAdams, operators at Santa Fe Springs, and the balance is owned by the company. Little activity is noted among operators to acquire acreage along the base of the hills where there are approximately 800 acres available. This tract extends to Playa Del Rey and runs over to the ocean. Considerable acreage is available just north of Ohio's producer.

NEW INTEREST IN VENICE OIL

Drilling Ban Removal Asked of City Planners

Subdividers and Owners Join Making Application

Public Hearing on Question Set for January 10

Subdividers and other owners of town lots in Venice, which are under the jurisdiction of the City Planning Commission, have filed applications with the commission, requesting the removal of oil drilling restrictions from the southern portion of Venice, and the matter will be given a public hearing January 10, next.

Dr. John Davenport and William P. Dickinson have filed applications requesting that the commission remove certain properties near the discovery well of the Ohio Oil Company, which has been leased to the acreage to start drilling at the earliest possible date.

Reports of the various operators holding acreage near Ohio's producer indicate that the movement to remove the district to permit drilling is well organized. Pending the reasoning of property there, locations for new wells will probably not be made.

One of the first companies expected to stake a location is the Cypress Petroleum Corporation. The company's twenty-acre lease is a direct offset to Ohio's completion and is in a favorable location, to the southwest of the Ohio well. A third of this lease is owned by Roddey McAdams, operators at Santa Fe Springs, and the balance is owned by the company. Little activity is noted among operators to acquire acreage along the base of the hills where there are approximately 800 acres available. This tract extends to Playa Del Rey and runs over to the ocean. Considerable acreage is available just north of Ohio's producer.

CINNABAR MINING FEATURES

Opening Up of Important Properties Marks Year in Nevada Mining Activities

RENO (Nev.) Dec. 29. (Exclusive)—Development of important quicksilver producers in the Antelope Springs, White Mountain, Castle Peak and a few small districts stands forth as the outstanding achievement of 1929 in the mining annals of Nevada.

The year witnessed the commencement of heavy mercury production by the Pershing Quicksilver, Nevada Quicksilver, B. & B. Quicksilver, Castle Peak, Red Rock Quicksilver, Mina Mercury and other corporations, and development of the Antelope Springs field, east of Lovelock, into the premier mercury-producing area of America.

Eighteen-cent copper stimulated heavy yields by the Consolidated Copper mines and Nevada Consolidated Copper companies at Ely, and from several small properties near Battle Mountain and other camps. Suspension of mining by the Mason Valley Mines Company at Washoe cut sharply into the 1929 yield, and apparently ended any immediate hopes of developing profitable copper mines in Western Nevada. Production of lead and zinc probably showed a gain over 1928, due to increased production from the Pioche and Good Springs and Tybo.

Premier events in Nevada gold mining were important discoveries in the properties of the Elkhorn Company at Jarbidge, rehabilitation of the Coalition and adjacent properties near Seven Troughs by the Seven Troughs Gold Mines Company and promising developments north of Goldfield and at Manhattan and Round Mountain. Attempts to develop new camps were generally disappointing, and the States' gold output declined from the yield of the previous year.

The silver depression struck Nevada mining disastrously. Scores of small producers were closed in the final half of 1929, and many large corporations either curtailed operations or suspended activities. Tonopah, Cortez and other important silver camps were badly affected by the slump of the white metal. An increasing interest in the development of nonmetals was a most encouraging aspect of 1929, with barium, selenium, tellurium and deposits valuable for paint manufacture, building materials and industrial purposes attracting new capital.

POTRERO WELL CREATES STIR

Project Comes in Suddenly, and Sprays Derrick

Initial Daily Output Set at About 2250 Barrels

Other Developments of Week in Field Reported

Lyons & Borden's Blinn No. 1 well near the corner of Prairie avenue and Regent street in the townsite area at Potrero started coming in early Saturday and field reports stated that gas pressure was so heavy that the derrick was sprayed with oil and that the initial production was estimated at from 2000 to 2500 barrels of oil per day. Bottom of the hole is at 4700 feet and is the deepest in that area to show promising results.

This well tested approximately seventy feet of oil formation. It is one block north of Parker No. 1, a pumpjack of George P. Getty, Inc., and two blocks north of the Globe Lease & Royalty Company's No. 8, which yesterday, according to company officials, was putting out 600 barrels of 40-deg. gravity oil per day from a depth of 3944 feet. This well came in during a water shut-off test and is flowing barefooted, with a slight cut in evidence.

Northwest of the townsite area Louise G. Simmel is drilling below 300 feet in English No. 1, on the English poultry ranch, a ten-acre lease, a short distance from a forty-acre tract held by the King Exploration Company. Ring drilled the Simmons No. 1 wildcat to a depth below 3400 feet and although showing some gas, eventually abandoned it, too far south for production.

The deepest test drilled at Potrero is one mile southeast of the townsite area. It is the S. P. Getty, Inc. company's Connolly No. 1. Pending arrival of three-inch drill pipe, this test remains temporarily suspended at 3000 feet. A few weeks ago the company had a difficult fishing job, but eventually recovered about 8000 feet of drill pipe and the well now is clean to bottom.

OUTLOOK AT HYDRAULIC MINES ROSY

Unusually Heavy Rains in Northern California Viewed as Favorable

The unusually heavy rainfall in the mountain districts of Northern California during the last three weeks is believed to insure one of the best hydraulic mining seasons the State has known in many years.

Some of the larger properties, which ordinarily shut down in August and September and are not operated until the snow begins to melt in the early spring, are taking advantage of the water now available, and many hours of piping not anticipated will be added to the season's run.

This is particularly true of those hydraulic mining properties located on the North Fork of the Yuba River, which drains into Bullard's Bar Dam, behind which tailings and debris are stored in compliance with Federal and State requirements.

At the Mines Operating Corporation's properties on Howland flat, which have just been put in condition for early spring operation, piping already has begun, and an abundance of water is reported, with a rainfall to date of twenty-four inches.

This company's operations will be among the most extensive carried on in Northern California during the coming season, and as the gravel is reported to be uniform in value, it is anticipated that profitable operation will be enjoyed.

Two six-inch monitors have been put in place at the Golden Pine mine in Sierra county, which is owned by Preston J. Roberts. The heavy rainfall to date will also be advantageous to the drift mining industry, which requires considerable water for gravel washing.

MILHAM WELL TO SINK DEEPER

BUTTONWILLOW, Dec. 29. (Exclusive)—Preparations to drill ahead are being completed at the Milham Exploration Company's Kern No. 6 well on Sec. 4, 25-23, at Buttonwillow Ridge. Bottom of the well is at 4983 feet, was reached last week in redrilling the hole. The bit will continue down in search of deep oil.

This well is the only active one in the entire district. It has the casing set at 3805 feet.

DEVELOPMENT OF MINE ESTATE IN SONORA PLANNED

NOGALES (Ariz.) Dec. 29. (Exclusive)—On recommendations made by Engineer George Walker, the Paymaster Mining Company is planning for diamond drilling in the Valencia property in the Altar section of Northern Sonora. The mine is to be reached from Saabas or Santa Ana, the latter by the Sonora Railway, and water can be secured by pumping three miles from the Altar River. Plans are being made to erect a 100-ton mill, to be operated by steam, to report from the camp, which has been idle for the past four years. It now is owned by Dolores Esperanza Corporation.

SANTA JOAQUIN OIL OUTPUT REPORTED

Total for November Set at 4,673,295 Barrels from 4772 Wells

BAKERSFIELD, Dec. 29. (Exclusive)—Petroleum production figures for November show a total of 4,673,295 barrels as the yield from wells in the Santa Joaquin Valley. This is a daily average of 155,711 barrels. The report shows that there were 4772 wells on the producing list during the month. Production came from various fields as follows:

Midway-Sunset, 2,170,236 barrels; Kern River, 616,899; Elkhorn, 519,696; Mount Paso, 356,521; Coalinga, 289,895; Kettleman Hills, 284,205; McKittrick, 142,125; Lost Hills-Belridge, 128,705; Fruitvale, 100,160; Round Mountain, 45,777; Wheeler Ridge, 19,335 barrels.

During the month there were twenty-three wells completed, a combined daily initial output of 7320 barrels. Nine of the new wells are in the Midway-Sunset field, adding 4440 barrels daily. Eleven in the Fruitvale field, adding 1315 barrels daily. In the Fruitvale field 1222 barrels daily were added by two new holes. Kern River had three new ones with 525 barrels daily and Belridge had one with eighteen barrels daily.

There were twenty-five new rigs erected during November and eighty-eight wells reported as being under active drilling process.

SANTA FAILS TO DELIVER IN OIL AREA

Only One Hole in Artesia Field Shows Symptoms of Production at Yuletide

ARTESIA (N. M.) Dec. 29. (Exclusive)—If Eastern New Mexico oil operators expected an oil well for a Christmas present, they have been disappointed. Only one well shows symptoms of developing into a real producer. It is the State No. 24 of the Midwest Oil and Refining Company on Sec. 10, 19-38 in the Hobbs district.

This hole encountered the first oil sand from 4135 to 4150 feet, registering an increase in flow after drilling to 4150 feet and after drilling to 4150 feet it made the first production test yielding 686 barrels in twenty-four hours. Drilling is going ahead at this well.

The State well of the Amerasia Petroleum Company on Sec. 1, 21-33, is believed to have at least a 100-barrel flow. The well is in the DeBaca county was recently abandoned as a duster by the Transcontinental Oil Company. It was a 100-barrel flow on Sec. 6, 2-22, drilled to a depth of 4777 feet.

The State No. 1 of the Penn Oil Company, in the center of Sec. 21, 17-36, long regarded as a pivotal test because of its possibility of establishing a connecting link between the eastern and western Los county districts has failed to develop any thing but a 3,000,000-foot flow of gas at 4212 feet. Drilling is underway below 4252 feet, but the test may soon be abandoned, it is asserted.

BAGDAD COPPER PLANS TO SPEND LARGE AMOUNT

HILLSIDE (Ariz.) Dec. 29. (Exclusive)—An even \$7,000,000 may be spent in the operations of the Bagdad Copper Corporation, twenty-nine miles northwest of this station on the Santa Fe Phoenix line. About \$600,000 is reported to have been used already in development, mainly by means of a diamond drilling and experimental work on the reduction process, for which an allotment was made of \$1,500,000.

Stations are being cut in a new shaft, now down 375 feet, and a large Allis-Chalmers hoist has been erected. Power is from two 300-horsepower Fairbanks-Morse Diesels. Steam shovels are to be put at work on ground developed by drilling. Over 100 men are employed, work directed by George G. Thomas.

Man Gives Blood to Save Mother

SANTA BARBARA, Dec. 29. (Exclusive)—Through the generosity and courage of E. Gomez, an employee of the Milham Oil Co., the life of a mother, Mrs. Sarah Pena, 194, was saved from a fatal operation yesterday morning by a blood transfusion in the Gomez Hospital.

Gomez donated a pint of blood to the mother of a few weeks, who was rapidly dying from a fatal operation. The transfusion was successful, and the mother is now recovering from the operation.

BOULEVARD RECENTLY WIDENED NOW IN USE

NORTH HOLLYWOOD, Dec. 29. (Exclusive)—Lanterns, Boulevard, recently widened, is now open to traffic. The widening was completed yesterday, and the boulevard is now in use.

The British tramp motorship Cape Hura came in yesterday from Newcastle on her maiden visit to the port. Under charter to H. I. E. Meyer, Jr. of San Francisco, she has aboard 7000 tons of coke of which 3000 tons are for local discharge at the Outer Harbor.

Passenger interests predict a substantial increase during the coming season for tourist traffic between British Columbia and Southern California, as a result of the through ticket reciprocal agreements recently signed by the Los Angeles Steamship Company and the Matsuo Line with Canadian Pacific Steamships. Passengers boarding C.P.R. liners at oriental ports may transfer at Honolulu to the Matsuo or Matsuo ship, and vice versa, under the agreement.

Capt. Thomas P. Hansen, master of the Merritt, Chapman & Scott salvage tug Homer, will be in charge of the company's new tugboat, which was operating base at Seattle. It was announced yesterday by Chester Beckley, secretary and treasurer of the concern.

Airplane Wrecked But Aviatix Foils Doom

Jean La Vock and Her Craft After Smash-up

GRAND JURY SINGS SWAN SONG TODAY

It Will Present Its Final Report to Judge Doran and Then Be Discharged

Meeting today for the last time, the 1929 grand jury is scheduled to present its annual report to Superior Judge Doran and be discharged.

The report, according to Foreman De Garmo, has been approved by the jury. It is understood to consist of several thousand words, representing recommendations and criticisms of the jury and outlines of the activities of the various committees.

All official business with the exception of submitting the report was completed last Tuesday.

This year's grand jury was organized on April 19, last, in the court of Superior Judge Doran from a list of names submitted by various organizations. It was the first grand jury to be organized in the county since the death of Judge Doran.

The retiring members of the jury are: Edward W. Garmo, foreman; L. E. Harbach, foreman pro tem; William H. Garmo, secretary; Lawrence F. Arnold, Frank L. Allen, Leo F. Bergin, Frank A. Barnes, J. A. Behrens, Ralph Hamilton, George E. Cross, Harry Harrington, H. J. Holmes, J. H. Henry, Brewster Kenyon, A. I. Melting, Louis F. Nordlinger, Walter Q. Patton, Edgar T. Wein and D. Ziegler.

During the present year the District Attorney's office has been represented in grand jury matters by Dep. Dist. Atty. Hammon and Shelly.

SIGNALS RECOMMENDED

The Police Commission's recommendation that traffic signals be installed at Wilshire Boulevard and California Street has been referred by the City Council to the Traffic and Lighting Committee.

ORDINANCES ADOPTED

The final ordinances for the improvement of the San Marcos Place and Avenue 48 district and for the improvement of the Olympic Games in 1932 have been adopted by the City Council.

DECISION DUE ON COLISEUM

Council Will Act Today on Contract Governing Control of Stadium Through 1933

The ordinance authorizing the execution of the contract governing the control of the Coliseum for the next four years will come before the City Council for decision this morning.

The contract is between the city and the Community Development Association. It provides that the Community Development Association retains supervision of the structure during the Olympic Games in 1932 and until the end of the year 1933.

The Community Development Association, a civic organization financed the cost of construction eight years ago and has controlled the Coliseum since that time. The contract extending the time of control is to give the association, and the California Olympic Commission, supervision of the structure which will be the central point of the Olympic Games.

Some days ago the Council approved an appropriation of \$225,000 for improvements on the Coliseum, the allocation to be con-

Death was cheated late yesterday afternoon by an intrepid girl flyer in landing a biplane in a maze of residences and high-tensioned wires as it escaped without scar, scratch or bruise.

Expert pilots and police investigators marveled at the miraculous escape of the flyer following the examination of the twisted and torn plane, which crashed into a heavy telephone post near the intersection of Third Avenue and Eighty-ninth street.

ENGINE FAILS

The plane was piloted by Jean La Vock, known as the dare-devil aviatix, whose exploits in hurtling through space to defy death, have made her well known in air circles.

The aviatix, according to the police report, was flying over the city in an afternoon jaunt. Suddenly the motor failed, and the pilot was forced to seek a landing place with a dead engine. She exhibited great ability and extreme calmness under the dangerous situation, pilots declared, and maneuvered her plane by shifting her position until she was able to swing the ship into a perfect landing position. The open space chosen for the difficult feat, proved too small, according to the horrified spectators who witnessed the attempt from the ground.

The plane struck bulky ground and started to swerve in a ground loop. It swung into a telephone post and both wings were stripped and the fuselage of the small ship badly battered.

SHE ESCAPES INJURY

Bystanders hurried to the scene of twisted wires and broken and snarled wood and canvas, expecting to carry the flyer to a hospital. The girl crawled out of the debris, and when the police ambulance answered the rush call it found the wreckage loaded on a truck, and the aviatix gone.

Mrs. La Vock, according to police, is a licensed pilot, employed by the Crescent Airways, with a flying field at Ninety-first street and Western Avenue. When she stepped out of the wreck she powdered her nose and smilingly asked for a glass of ice water. Thirty minutes later, according to upper deck officials, she was in the air in another plane and showed no signs of nervousness over her exploit.

FINAL ORDINANCES PASS

The City Council has adopted the final ordinances for the improvement of Zelaeh Avenue from a point 1300 feet north of Margate Avenue to Ventura Boulevard and for the improvement of Darby Avenue from Valerio to Saticoy streets.

LOST HOSPITAL RADIUM RECOVERED BY SCIENCE

Fifteen thousand dollars' worth of radium contained in a small lead tube the size of one's little finger, was recovered yesterday at General Hospital, following a frantic search for the missing mineral by experts from California Institute of Technology, after the package had been thrown into a drain by a Mexican woman patient.

An electrocope, which shimmers violently when close to radium and shudders slightly when further removed, was employed by C. Y. Chao, Chinese physicist student and expert from Caltech, to recover the valuable mineral, which is owned by the Radium Institute. The search was instituted by the insurance company following notification of the loss and continued all of Saturday night until it was recovered yesterday throughout the grounds and in the hospital.

The radium was lost in Ward 20, where Mrs. Pablo Garcia was being given a treatment by Dr. H. H. Hattery. The woman threw the package away, hospitalized because she said she did not like the strange sensation it gave her. The loss was not discovered for several hours. The electrocope located the missing mineral in a pipe line beneath the hospital after a search practically had been abandoned.

The package is comprised of electric cables of radium or about 200 milligrams, involved in a lead case and covered with rubber.

HALE STORE ANNOUNCES RETIREMENT

One of City's Oldest Retail Department Companies to Cease Business

The J. M. Hale Company, one of the oldest retail department stores in Los Angeles, formally announces to the public its retirement from business.

The company was founded forty-seven years ago by J. M. Hale, who has resided in this city during its early growth from a small town to the fifth largest city of the nation.

In speaking of the expiration of the store's lease, Mr. Hale announced that the "Retiring Sale" will be conducted under the store's own management, and that the same personnel will be retained during liquidation.

JURORS IN DAMAGE ACTION DISMISSED

Superior Judge Hahn has dismissed the jury which for two days deliberated on the lawsuit of Nathan Rosenthal against Dr. E. O. Hay for \$50,000 as a result of the death of Mrs. Fannie Rosenthal, the plaintiff's wife November 23, 1928. Rosenthal in his suit asserted that Dr. Hay diagnosed his wife's illness as influenza, whereas she had double pneumonia, of which she died.

HEARING DATE FIXED

The City Council has set for hearing on January 29, next the ordinance of intention for the improvement of Palaton Avenue from Avenue 85 to Avenue 94.

CODIFIERS MEET THURSDAY

Gov. Young Will be Present at Opening Session of State Commission Here

The first meeting of the newly created California Code Commission, whose members were named on the 24th inst. by Gov. Young, will meet at 11 o'clock Thursday morning in the Los Angeles offices of the Governor in the Thursday Reilly building. Gov. Young, who will come here next year to attend the Tournament of Roses at Pasadena, will be present at the meeting, which has been called for purposes of organization, it was announced.

Three Los Angeles attorneys were named by the Governor to serve on the new commission. They are Thomas C. Ridgway, former president of the State Bar; Leonard B. Sloan, member of the Board of Governors of the State Bar; and Guy R. Crump, president of the Los Angeles Bar Association. Other members are Maurice E. Harrison, San Francisco Bar Association; A. M. Kidd, Berkeley, professor of the school of jurisprudence, University of California; Perry Evans, Berkeley, practicing attorney; Gerald H. Lemore.

The commission is the latest to be named since California became a State. The first commission named to create a civil, penal and political code began its work in 1872. The code adopted at that time continued in force and in 1903 a new commission was appointed to make changes in the codes. These were adopted by the 1901 Legislature but were held unconstitutional by the Supreme Court. This explains why the California codes exist today much as they were adopted in 1872.

BAIL BONDSMEN HIT BY RULING

Forfeiture Decision Upheld by Supreme Court

Producing Fugitive Client Does Not Return Cash

Justice Sherk Dissents on Law's Interpretation

With one justice dissenting, the State Supreme Court handed down a decision, just filed in the clerk's local office, which will strike a blow to bail bondsmen and bonding companies operating in California. The decision, in effect, makes it unavailing for a bondsman to return an absconding defendant-client to court in the hope of obtaining the return of the forfeited bond money.

The decision was based on an appeal by the Seaboard Surety Company of America against a decision of the Los Angeles Municipal Court. Municipal Judge Bullock had declared the bond of a defendant forfeited, after the latter had failed to appear in court at the appointed time. The judge refused to set the forfeiture aside after the bonding company found and took the absconding defendant into court thirty days later.

FENAL CODE CITED

Appealing from Judge Bullock's refusal, the bonding company cited the Fenal Code as authority for the statement that "if at any time within ninety days of the forfeiture the defendant and his bail bondsman appear and satisfactorily excuse his neglect and show to the satisfaction of the court that the absence of the defendant was not with the connivance of the bail, the court may direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just."

Correct interpretation of the word "and" in the Fenal Code section is said to be the crux of the controversy, it being declared that the word should be construed as meaning "or." The Supreme Court, in its decision, however, establishes the construction as "and."

JUSTICE DISSENTS

In dissenting Justice Sherk declared that he could not subscribe to the opinion of the other justices "that a defendant may be found to be entirely blameless and yet the bail be found guilty of connivance with him."

"It requires at least two persons to connive," Justice Sherk's dissenting opinion reads. He held that the bond is not forfeited if the defendant is returned to court to meet the requirements of justice than by the public coffee with forfeited bail money, Justice Sherk held.

FILM STUDIO APPOINTS ITS OWN CENSOR

Vulgarity No Longer Has Popular Appeal, Head of New Company Believes

It was announced last night by Joe Rock, president of the newly organized Premier Pictures Corporation, that all of the productions of his company are to be strictly censored at the studio to eliminate any possible suggestiveness or vulgarity and that this task has been assigned to Mary Blaine Thompson, former newspaper woman and social worker of Pittsburgh. The facts that the new appointee comes from a State where official censorship is severe and that she has for several years served as a motion-picture critic on eastern newspapers had much to do with her appointment, declared Rock.

With its entire output comprising comedy productions, Premier Pictures Corporation, which will begin a heavy "shooting" schedule next month, is the first comedy-film concern to employ its own censor. By this action the company hopes to elevate the standard of lighter screen entertainment and at the same time to avoid needless expense in filming scenes which might prove objectionable in certain communities.

Premier Pictures Corporation has taken over the old Marshall Neelan studios and will produce comedies with sound and dialogue.

HUNT FOR LOST STUDENTS FAILS

Three Hikers Wandering on Mt. Wilson

Girl and Two Youths Missing Since Saturday

Trio Astray Without Food or Water

Searching parties of deputy sheriffs, forest rangers, Boy Scouts and volunteers late last night failed to find a trace of three Los Angeles students, lost since Saturday morning on the barren slopes of Mt. Wilson. The trio, Cecilia Caplan, 18 years old, of 4339 Raso Box Drive; Jack Schwartz, 19, 2509 1/2 East Fourth street, and Lawrence Kotkin, 20, 3016 Delton street, were thought by deputy sheriffs to be wandering along unfrequented trails to the north of Mt. Wilson, and are without food and water.

An airplane chartered by S. Caplan, father of the missing girl, yesterday circled over the slopes of the mountain until forced down by darkness without finding any trace of the party. According to officers of the Altadena Sheriff's Substation, the plane again will take up the hunt this morning.

PARTY DIVIDED

The girl and two young men became separated from a hiking party which had climbed to the top of Mt. Wilson Friday afternoon. The party remained all night at the hotel and on the return trip divided into two units, one of them to visit the observatory and the other to go down the trail. They were to meet at the hotel at 10 o'clock.

When the first party arrived at the meeting point, the trio failed to appear and after a wait of several hours several of the men went back over the trail without finding a trace of the missing ones. The group, which numbered about twenty young people then came into Los Angeles to report to the Sheriff's office.

REWARD OFFERED

A searching posse headed by Deputy Sheriff P. W. Orsick of the Altadena Substation, headed the first party of deputies and early yesterday morning they were joined by three troops of Boy Scouts. Deputy Orsick said there is a possibility the trio may have become confused and taken one of the many trails which leads back into the mountains and in the direction of the observatory and added that if the party had gone in this direction it might be another twenty-four hours before any word could be received from them.

Caplan notified the Altadena Sheriff's Substation that he would give a substantial reward for the recovery of his daughter.

THE LANCER

by Harry Carr

SCHOLARSHIP doesn't count—says Prof. Brandenburg of Purdue University. Only imprudence, agreeableness and attractiveness count in the race for success.

Yes, yes, I dare say that is why this man Herbert Hoover who did not bother about being impressive and had to struggle along on brains has been such a failure in life.

MERCIFUL

A great mountain peak in Canada has been named in honor of Ramsay MacDonald's daughter.

Heaven was merciful to us that we never had to bestow upon an age-old snow giant the name "Katie Peak."

INQUEST

I seem to have sounded the depths of human iniquity in suggesting that U.S.C. need not assemble an army to meet visiting football teams.

An enraged young woman in Beverly Hills sends me a questionnaire which I am to answer. Her sarcasm is the more terrifying in that she underlines all the most dreadful words. She even sends a beautiful new postage stamp. I don't know what to do with the stamp—unless I send it to the starring Chinchee.

A young columnist in Glendale pours down the most frightful scorn upon my head and says I used to write sports in the days when the only sport fans were in barrooms.

TEAM VS. TEAMS

I think the best thing I can do is to retract everything as hastily as possible. I didn't mean a word of it.

For the consolation of Pittsburgh which is to meet the golden horde on New Year's Day, let me say:

The first hundred are the worst.

SPELLING

Dr. Ernest Horn of the State University of Iowa is for spelling reform. Me, too.

The way we write the English language is an absurdity. If there is any theory behind a written language it is that certain symbols represent certain sounds. In English they represent nothing.

Through—tough—though—sough—cough—

I never could learn to spell; but the hours I have wasted in trying might have been turned in some other cultural direction that would have spared me these soul-freezing remarks from young ladies in Beverly Hills—about my abysmal ignorance.

SMARTY AGE

The American Academy for the Advancement of Science has labored and brought forth the fact that youth begins to revolt in the middle of the high-school age.

Any one could have told the scientists that without all the profound experiments. The "smarty age" has long been a fixed period in the experience of all parents.

The only difference between now and a less afflicted period of our national life is that nowadays children are both seen and heard. They even write letters in the form of questionnaires to wise and profound persons.

APPROVAL FOR ORDINANCES

The final ordinances have been adopted by the City Council for the improvement of Cherokee Avenue from Franklin Avenue to Hollywood Boulevard, the improvement of Cherokee Avenue from Hollywood Boulevard to Western Avenue, the widening of the Summerland Avenue and Marshall Court districts and the lighting of the Elynn Avenue and Valley Heart Drive district.

NEXT PANTAGES FALL KILLS TWO WORKMEN

Theater Men's Attorneys and Family to Confer

Appeal to Higher Court or Habeas Corpus Open

Council Today to Decide on Action to Be Taken

Decision on the next move in the attempt to effect the release of Alexander Pantages from the County Jail on bail pending his appeal on conviction of an attack on Eunice Pringle, will be made at a conference today of his four attorneys and members of the family.

Announcement of an appeal to the Appellate Court was made following a decision of Superior Judge Fricke refusing to allow the theater man his freedom on a plea of ill health and assertions that proper treatment could not be afforded at the

FALL KILLS TWO WORKMEN

A fall from a second-story window yesterday resulted in the death of R. E. Powell, 44 years of age, of 1823 North Mariposa avenue. He was painting the exterior of his dwelling at that address, police stated, when he lost his balance and fell to the sidewalk below, landing on his head. He was given emergency treatment at the Dickey & Case Emergency Hospital, where

County Jail. Later the attorneys intimated that they might seek a writ of habeas corpus, but they now have held the matter over until the conference today.

Pantages still is in the hospital of the County Jail following his decision not to accept a transfer to the prisoners' ward at the General Hospital. In his original ruling Judge Fricke directed that the convicted theater man be sent there for treatment of the heart ailment which was made the basis of the appeal for freedom on bail. The prisoner declined and decided to remain in jail. He was visited yesterday by his daughter and two sons.

HERE'S BIRD OF PRIZE FOR BIRD

Cup Will be Given at Poultry Show

Richard Carlson, 28-year-old bricklayer of 1732 North Harvard boulevard, died yesterday in Sylvan Lodge Hospital from injuries received on the 18th inst. when he fell from a building in course of construction near the Dickey & Case Emergency Hospital. Carlson plunged two stories.

LANDMARK OF STUDIOS TORN DOWN

New York Tenement Scene Being Razed to Make Way for New Structure

A New York tenement-street set, which almost had become one of Hollywood landmarks, is being razed at the Metropolitan Studios to make way for progress in the industry brought on by the advent of the talking pictures. As soon as the set, built nearly seven years ago, is torn down a new administration building to cost approximately \$20,000 will be built in its place.

The set has occupied the southwest corner of the studio and, according to Phil Ryan, studio manager for the Christie Brothers, who operate Metropolitan, has been used by nearly every motion-picture company in the industry.

"Although originally built as a New York tenement set, the set has been changed to meet every conceivable demand of pictures," Ryan said. "It even has been changed to a Chinatown scene for a number of pictures."

INMATES OF SHELTERING HOME FETED

Hebrew Candle Festival Celebrated and Gifts Presented to Residents

The Hebrew festival of the candles, or "Hanukkah," was celebrated yesterday afternoon at the Hebrew Sheltering Home for the Aged. Fourth street and Boyle avenue, with a party given by the ladies auxiliary of the home for its 110 residents, at which gifts were distributed and the old men and women were entertained by actors, including Paul Muni, Jack Berlin, Harry Gough and Marjorie and Janice Rosenthal. Ralph J. Levy acted as entertainment chairman, and Leo Zimmerman, accompanist. Speeches were made by Max Goldstein, executive director of the home; A. Mark, president; Simon Lewis, one of the founders, and Charles Beaver.

FIVE LOSE LIVES OVER WEEK-END

(Continued from First Page)

ter was held on suspicion of manslaughter and as a delinquent. Police stated that shortly before the accident the Curry boy had been working on his light car. His brother, Leon, had towed him along Hammer Boulevard until the motor started. It was on the short return journey that the crash occurred.

DEATH EXPECTED Mrs. Ella Bachman, 63, of 290 North Belmont street, is not expected to survive injuries received when she was struck down by an automobile near her home on Belmont street. She was taken from the Georgia-street Receiving Hospital to the Queen of Angels Hospital suffering from shock. The car which hit her, driven by Ray Smith of 3408 Sunset boulevard, according to police.

Charles H. Evans, 70, is not expected to live following injuries he received when struck by a car in front of her home at 4323 Bel-Air Drive. The little girl had been taken for an automobile ride with a number of companions by Adolphus Williams of La Canada. On returning the girl home she alighted and, without the knowledge of Williams, ran after the car and climbed on the running-board after he started the car.

CHILD MAY DIE Martha Webb, 7 years of age, was critically hurt when she fell from the running-board of a car in front of her home at 4323 Bel-Air Drive. The little girl had been taken for an automobile ride with a number of companions by Adolphus Williams of La Canada. On returning the girl home she alighted and, without the knowledge of Williams, ran after the car and climbed on the running-board after he started the car.

Two motorists were arrested on suspicion of driving while intoxicated early yesterday morning. They are James B. Williams, 21, of 102 South Robertson boulevard, Beverly Hills, and Joseph A. Turner, 46, of 828 West Tenth street. Williams, according to Officer

FILM INDUSTRY RECORDS GAINS

Closing Most Successful Year in History

Production Schedule for 1930 Augmented

Adolph Zukor Summarizes Business Outlook

The motion-picture industry has just closed the most successful year in its history, said Adolph Zukor, president of the Paramount-Panama-Lasky Corporation, in summarizing picture industrial progress in the year that is closing.

"Net earnings for the year have been far greater than even the most optimistic forecasts indicated at the beginning of 1929," the producer reports. "Theater attendance has increased 15,000,000 weekly, due to the popularity of talking pictures; unusual theater expansion and an increased supply of excellent pictures from Hollywood and eastern studios have seen the outstanding development in the industry during the year."

"In the light of accomplishments in the business during the last quarter of 1929 and from preliminary surveys made by all branches of the motion-picture industry there is every indication that 1930 will surpass the past year in every respect," he says. "Steadily increasing revenue and the popularity of talking pictures have stabilized the industry, and put it in a position for future prosperity. Never has the industry faced better prospects and never has it been better equipped to take advantage of the opportunities offered for financial advancement."

PRODUCTION INCREASE "All of the major companies in the business have geared their plans to meet the ever-increasing demands of the public for motion-picture entertainment. Surveys already made by the Motion Picture Producers and Distributors of America, Inc., show that the plans for the first six months of 1930, compared with the first six months of 1929, provide for a substantial increase in the number of employees in production, in distribution and in theater operation. There will be an increase of more than 15 per cent in the total expenditures, which run into many millions of dollars annually, for the production of pictures during the first six months of 1930 as compared with the same period for 1929. The survey also shows there will be substantial increases in distribution and in theater operation. Plans for increased theaters and alterations and repairs for existing houses already have been made by the major companies."

TALKERS POPULAR "All of this gives ample proof of the excellent condition of the motion-picture business in all its branches and warrants the most optimistic outlook for the future. The year 1929 proved to all of us in the motion-picture business that talking pictures are not a flash in the pan and that they have opened up many channels for improvement and advancement in screen entertainment. Producers, who at the beginning of the year were seeking the proper formula for this new art and who had some misgivings as to the type of picture to be made for the talking screen, have found the proper formula for this new art and are proceeding on a clear road ahead and as the productions made during the latter months of 1929 have indicated a far superior quality of pictures, they are prepared to give to the public in 1930 the finest product that has ever been put on the screen of any theater."

NEW SHAREHOLDERS "This condition of prosperity has engendered a new confidence in the motion picture public. On December 6, 1929, there were 13,176 registered stockholders of the Paramount-Panama-Lasky Corporation, a new high record in the number of stockholders for the company. This corresponds to 9,776 stockholders on September 6, 1929, an increase of 34 per cent.

"The situation of the Paramount-Panama-Lasky Corporation, I believe, is illuminating, as it throws a new light on operations which have been revolutionizing the earning power of the entire film industry in the current year. "Earnings of the company for the fourth quarter of 1929, which will constitute an unprecedented high record for the period, of around \$5,000,000 are approximately 100 per cent greater than net earnings for the fourth quarter of 1928, when talking pictures were still an unappreciated factor for growth within the industry. The earnings for the first quarter of 1929 were 14 per cent greater than earnings for the corresponding quarter of 1928. Those for the second quarter were 53 per cent greater and those for the third quarter were 119 per cent greater. "Paramount's total net earnings for the year, after all charges have been deducted, will exceed \$15,000,000, or \$4.10 a share in the company's outstanding common stock, within \$15,000 of the total combined net incomes for 1927 and 1928."

DATES SET FOR BABY CONTEST The annual children's health show and baby contest of the Los Angeles College of Chiropractic will be held January 11 and 12, according to announcement yesterday by Dr. Charles H. Wood, college president. This year a children's clinic at which youngsters will be examined and treatment prescribed free is to be held on the first day. Provision is being made for 500 babies.

BOTANIST COMING HERE Dr. W. B. McDougall of the University of Illinois is to come to Los Angeles as visiting professor of botany at the University of Southern California for the second semester of the academic year 1929-1930. Dr. McDougall is author of books on the following subjects: "Ecology of Forests," "Mushrooms," "Root Growth of Trees," "Plant Ecology," about twenty-eight botanical papers, and he recently has completed a book on the wild flowers of Illinois.

PROJECTS IN LONG BEACH AMBITIOUS Ocean Boulevard as Great Artery from Seal Beach to Point Fermin Visualized

An ambitious program of municipal expansion is suggested to bridge the gap between Seal Beach and Long Beach by a circular to city officials sent out by H. J. Wertheimer, president of the Ocean Boulevard Property Owners' Association, a copy of which has been received by the County Board of Supervisors.

Mr. Wertheimer proposes that Ocean Boulevard be paved from Seal Beach to Point Fermin, crossing Terminal Island, and reaching the island by way of tunnels under the Long Beach ship channel on the east, and to San Pedro by a tunnel under the main ship channel. It is suggested that the tunnels have ample vehicular space and four railway tracks for the harbor belt line.

A new Union Station for Long Beach will include an airport with landing facilities on the roof of the station. If Mr. Wertheimer's plans are followed out, this depot would be located on the west bank of the flood-control channel. Rail tracks to the channel would enter Long Beach by way of the flood-control right of way, which, it is argued, the city of Long Beach should acquire and control.

The necessity of the city of Long Beach owning and controlling all of its ocean frontage is stressed vigorously and the plight of Los Angeles and other beach cities where valuable shore properties have fallen into private hands is cited as a "horrible example."

Jetties at Alamitos Harbor are necessary to prevent this waterway being choked with sand, it is stated, and it is suggested that the government pay for the improvement.

Council Refers Annexation Plea The request of a group of residents that they be permitted to call an election to annex to the city a strip of territory lying west of the Chatsworth Reservoir has been referred by the City Council to the Board of Water and Power Commissioners for consideration.

It is the policy of the city not to add any community unless it is considered possible to supply it with water.

Heben Huber and "The Times" Award

show in the Armory Building, Exposition Park, January 1 to 8. The trophy must be won two successive times by the same exhibitor to become the permanent property of the winner.

STRATTON RITES SET FOR TODAY

Funeral to Be Conducted at Rosedale Cemetery This Morning

Final rites for William Krutz Stratton, 22-year-old son of Mr. and Mrs. O. W. Stratton will be celebrated at the Rosedale Cemetery Chapel this morning with the Rev. Philip A. Neely officiating. Mr. Stratton died Friday morning at the Hollywood Hospital after an illness of several months.

William Krutz Stratton was a native of Los Angeles and attended the Los Angeles High School and the law department of Southwestern University. He recently completed a visit to Europe following his graduation from law school and last summer toured the United States in an automobile. His father, O. W. Stratton, is a widely known wholesale merchant.

In addition to his parents, he leaves his brother, Harry, at the family home, 2290 West Twenty-fourth street. Arrangements for the funeral are in the hands of the Garret Brothers undertakers.

WHAT TO DO WITH DAVIS, TOPIC TODAY

Police Commission Will Confer With Mayor on How to End Deadlock

Plans of the Police Commission in reference to the fate of Chief of Police Davis are expected to crystallize today at a special conference of the commission and Mayor Porter.

Definite information as to the status of the situation could not be ascertained yesterday as Mayor Porter declines to discuss the reported program of certain commissioners to create a new position for chief Davis, whereby he will be retained in the Police Department, but in a lower rank.

Police commissioners opposed to Davis are said to be seeking a ruling from the City Attorney's office as to the legality under the city charter of a scheme to demote the Chief and then appoint him as a deputy. This move, it was pointed out, will permit the commissioners to name their own manager for the Police Department, and halt the filing of the "indeficiency and neglect-of-duty" charges against Davis, which were brought by a group of politicians and have been pending for several weeks.

Commissioner Wehn, recently appointed and confirmed, is expected to accept formally his position today. He is a member of the grand jury, and has been sitting as an "observer" at Police Commission sessions until he is discharged from jury service. The grand jury is prepared to disband today, and this will remove the legal bar that has prevented Wehn's taking a voting part in the commission's activities.

The request of a group of residents that they be permitted to call an election to annex to the city a strip of territory lying west of the Chatsworth Reservoir has been referred by the City Council to the Board of Water and Power Commissioners for consideration.

It is the policy of the city not to add any community unless it is considered possible to supply it with water.

Two motorists were arrested on suspicion of driving while intoxicated early yesterday morning. They are James B. Williams, 21, of 102 South Robertson boulevard, Beverly Hills, and Joseph A. Turner, 46, of 828 West Tenth street. Williams, according to Officer

Many County Positions Open

Examinations for many county civil service positions are announced by the Los Angeles County Civil Service Commission to be held soon.

Positions to be filled include assistant photographer, typist clerk, office boy, gas shovel operator, steam fitter, well driller, deputy public defender, X-ray technician, junior assistant of health department, senior stationary storekeeper, assistant storekeeper, and multi-graph operator.

Application blanks and details concerning the last days of filing and examination dates can be obtained by applying at Room 1002, Hall of Records.

Air mail service has just been inaugurated between San Luis Potosi and Tuxtepec, Mex.

Postoffice Case on Trial

Gay O. Squire, postmaster at Alhambra, recently pleaded guilty to a charge of conversion of postal money to appear before the United States District Court.

The defendant said that he "borrowed" the money from the postoffice to take care of a family emergency. He has been in the postoffice for a number of years.

STREET FIGHT FIGHT The City Council is to hold a monthly appropriation session and marking streets for \$8000. The Council will be asked to pay for the streets.

Motor transport is rapidly expanding.

Believing that life was without the woman, Charles F. Seibert, 57, of a steamship company, residing at 843 S. Main street, according to a report, yesterday visited a child street, yesterday afternoon chatting a few moments over a quantity of police papers dead on the ground occurred at 30 with Mrs. Humphreys, a woman at the time was having breakfast.

LETTERS TELL The Hollywood stationer, one in the dead man and who delivered after his death, own handwriting that he intended to make a sacrifice. Stevens there is no doubt that he was killed himself. A woman was found in a room, was pushed forward on a bed and a distinct mark on the room, Lieutenant.

REVELATIONS The body was taken to a morgue where an examination was made to determine the cause of his death. The body was refused to talk.

DISTRICT CHANGES The City Council has Building and Safety Commission the request of the City Council to be revised to include Grand Boulevard and Union district.

Postoffice Funds Case on Today
Guy O. Squire, formerly postmaster at Alhambra, who recently pleaded guilty to a charge of conversion of postoffice funds, is scheduled to appear today before United States District Judge James C. McLaughlin in the federal court.
The defendant said that he had borrowed the money and was unable to obtain a loan to reimburse him. He has been in the postoffice for a number of years.

STREET PAINT FUNDS AMEND
The Police Commission has asked the City Council to increase the monthly appropriation for painting streets and marking streets for parking. The Council referred the request to the Finance Commission.

Motor transport in Paris rapidly expanding.

STATE'S MUSICIANS RATE HIGH
Four 1929 Prodigies From California
YULE SEAL PAYMENTS REQUESTED
Tuberculosis Association Has No Other Revenue, Its Secretary Reminds
An urgent appeal to remit for Christmas seals received is made by Miss Sidney Maguire, executive secretary of the Los Angeles Tuberculosis Association, now conducting its annual Christmas seal campaign. Miss Maguire revealed that a large number of people who have received seals from the association have as yet failed to send in their checks. In view of the fact, that the funds derived from the sale of seals is the association's sole source of revenue, she asked that the public support the campaign by sending their checks immediately.

Among the most important projects sponsored by the association, Miss Maguire revealed, is a department of nutrition in the tuberculosis division of the City Health Department, established to demonstrate in a practical way the manner in which diet can fight disease. Mrs. Ina Z. Crawford, former college instructor and specialist in household economics and dietetics with an enviable record of success, is in charge of this work.

"As in the case of other projects," Miss Maguire said, "the cost of this nutrition department is being borne by the association. Ultimately it should be taken over by the city, when allowance can be made for it in the health budget."

EX-OFFICER SLATED FOR PLEA TODAY
Jack Ormsby, Former Dry Agent, to be Arraigned on Liquor Charge
Jack Ormsby, former Federal prohibition officer, is to appear today before United States District Judge Henning for arraignment and plea on a charge of conspiracy to violate the National Prohibition Act. Ormsby, who left his position as a Federal prohibition officer in April, 1927, after fourteen months' service, was indicted with ten others on a charge of operating three stills in the Mojave Desert, near Llano, about ten miles from Palm Springs.

It is charged that Ormsby and others leased a ranch under the pretext that they were going to operate a turkey farm. It was stated by A. J. T. Redwine, one of the men indicted, that certain of the men indicted had threatened to hi-jack the ranch and were taken into the asserted conspiracy.

Federal officers are still searching for several of those indicted with Ormsby.

On April 28, last, Ormsby and Harry Chenoweth were held by Kern county authorities for investigation of the killing of Charles Chulla on the Cohen ranch in the Dry Lake district, thirty miles east of Lancaster. County officers were told that Ormsby and Chenoweth, posing as Federal officers, attempted to shake down Chulla, who was killed in the resultant gun fight.

Ormsby testified at the coroner's inquest that he merely had tried to obtain evidence of liquor making in the hope that such unofficial detective work would win back his job as a Federal prohibition officer. He said that when he and Chenoweth reached the ranch, Chulla and another man recognized them and opened fire. To this, he and Chenoweth replied, until Chulla fell, and the other man escaped into the desert. Constable Cummings, who examined the dead man's wounds, said that the fatal bullet was fired from Chenoweth's pistol. Ormsby was released.

Janitor Leaves With Valuables
Miss Marie Burge, nurse at the Georgia-street Receiving Hospital, yesterday listed her name in the category of persons who have promised police to keep their homes locked at night.

"I was awakened in my apartment at 247 North New Hampshire avenue by a noise at the door," Miss Burge told detectives. "I remembered I hadn't locked it. In the darkness I saw the form of a man I thought was just entering. I wasn't frightened very much so I asked him who he was. He said he was the janitor and then disappeared. I got up and locked the door and went back to bed. But when daylight arrived I found he had been inside and taken my purse, badge, driver's license, \$5, and a lot of personal papers. Hereafter I'll keep the door locked."

what is a lift van?
WHAT IT IS
A Bekins Lift Van is literally an immense, light-steel, reinforced, packing case...large enough to contain an average five rooms of furniture. Your household goods are carefully loaded, protected by pads, and the van sealed at your residence. It is then transported by truck to railroad flat car or steamship. See illustration.

WHAT IT DOES
The sturdy construction of the Bekins Lift Van eliminates the necessity of crating and packing. Your furniture remains sealed in the van from the time it is loaded at your present home, until it arrives at destination...no unnecessary handling nor wear and tear. A Bekins Lift Van will afford you an appreciable saving in shipping costs.

by JUANA NEAL LEVY

Lovers of porcelain—and they are legion—recently had a first day in Paris. The Louvre, in commemorating the one hundred and fiftieth anniversary of a vital moment in the history of French porcelain, staged a retrospective showing of this art from the late seventeenth century until 1914, and completed it with an exhibition of present-day activity in Limoges.

As the cognoscenti are aware, Western Europe was centuries in finding the secret of hard porcelain. First known in China 2000 years ago, in the early sixteenth century the Dutch imported it into the Occident on a large scale. Princes and grand seigneurs soon became ardent collectors. In Rouen the soft porcelain was skillfully made, but the reproduction of the Chinese article defied all attempts at imitation until Böttcher, about 1760, began to make it in Saxony, whereupon the Elector installed him in the Albert Castle at Meissen. Severs produced handsome examples of the porcelain genre, but did not know where to find the materials for the China article.

In 1738 the Dubois brothers left Severs and started a factory, the Chantilly, under the Prince de Conde. A few years later the French Minister of Finance bought their secret and set them up at Vincennes, and in 1796 took these processes to Severs and housed them in specially constructed buildings.

In the meantime, a small quantity of hard porcelain, the first made in France, was produced in Strasbourg by Hannong. In 1794 one of his sons sold to Severs the hard porcelain secret, but the materials were lacking. Now comes Limoges, and the event which is being celebrated.

One hundred and fifty years ago, Mme. Darcel, wife of a poor country surgeon, found near Limoges a whitish clay which she believed could be a good substitute for sepiolite. Her husband figured that it could be used for the making of hard porcelain, and this became the source supply for Severs pending the later development of the industry in Limoges.

The exposition which opened recently in the Musée des Arts Décoratifs in Paris in the Louvre, brought together an extraordinary variety of the best examples of French porcelain during more than two centuries. The objects on view were estimated to be worth more than 15,000,000 francs. The Adrien Dubouché Museum in Limoges sent samples from its immense collection of 5000 pieces, the Severs Museum contributed largely, and other museums, as well as private collectors, lent their treasures.

E. G. Woods, Mrs. Nowlan and Mr. and Mrs. H. B. Brooks have arrived in Paris and are staying at the Hotel Maurice.

Mr. and Mrs. Howard Adams have arrived in Paris and are staying at the Hotel Royal Hausmann.

The White Star Line's latest ship, the *Maestri*, arrived at Cherbourg last week after the stormiest crossing in her history, a crossing with wind and sea so furious that a last sturdy ship might have suffered more serious results. Among the passengers were David T. Babcock, Mr. and Mrs. Harry B. Brooks, William C. Hays, Leonard J. Kerner and Mr. and Mrs. E. J. Nolan.

Mr. and Mrs. G. Y. Chalkley, who have been traveling in Germany, were recent visitors to Berlin, stopping at the Hotel Bristol.

Among the Californians who entertained guests at dinner at the Savoy Club in London last week was Mrs. Edith Jayne of Hollywood.

Mrs. Viola Brothers Shore and Miss Wilma Shore of Los Angeles and Dr. and Mrs. Walden R. Rother and Miss Virginia Rotheracker of Beverly Hills, have crossed to Europe aboard the White Star liner *Olympic*.

Phillip Klein of Beverly Hills, has been passing some time in Berlin as a guest of the Hotel Adlon.

Mr. and Mrs. Arnold Miller have arrived at the Hotel Ritz in Paris from London.

H. W. Hoffman of Pasadena, and Mr. and Mrs. W. S. Hammond of Hollywood, have been visiting in Florence, Italy, as guests of the Hotel Savoy.

Health and Diet Advice
By DR. FRANK M. COY
Author of "The Way to Health"

MEAT A GOOD FOOD
People who use large amounts of nervous energy or those who do brain work with little or no exercise will find that eating up to eight ounces of lean meat a day with plenty of cooked vegetables and raw salads will give them more energy and make them feel better than any other diet.

Usually when people of a quick mental type indulge in large quantities of starches and leave off meat they immediately find themselves dried and listless. The resumption of the lean meat for the daily dinner makes them much more amiable and energetic. It is true that those who are engaged in hard physical labor may consume large amounts of starches which are burned up by the exercise, but for those who work with their brains, the protein of meat is one of the best and most easily available sources of protein that we have.

There is a definite need of protein in the body. It is a class of food which is used in tissue building. During the years of growth when the body increases in size, there is an even greater need of an adequate protein supply, but all matured bodies must have a source for the replacement of tissues from wear and tear.

Lean meat is from 15 per cent. to 30 per cent. protein and is one of the most easily digested forms of food. It is much more easily available for those of weak digestion than the proteins in cheese, nuts, etc. The meat is the quicker it is digested, and you will find from actual experience that meat which has the fat removed from it before broiling not only has a superior flavor but digests more readily.

In cooking meat, it should first be seared with a very hot fire on both sides. This locks the juices in and makes the meat tender. After the first quick searing, the fire

New Campus Custom Inaugurated

Miss Marche Agens (Ray Huff studios)

NAUGURATING a new custom on the campus of the University of California at Los Angeles, Alpha Omicron Pi Sorority has invited an outstanding member of the society to their formal dinner Wednesday night, at the new chapter house, 804 Hilgard avenue. Miss Marche Agens, social chairman of the sorority, is in charge of arrangements.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 130 South Broadway.

BEef SOUFFLE
Two cups of leftover beef, chopped fine, one-fourth of a medium-sized onion chopped, two tablespoons of chopped parsley, the yolks of three eggs, one and one-half cups of milk, two tablespoons of butter, two tablespoons of flour, and the whites of three eggs, add the onion and parsley and chopped meat, the well-beaten egg yolks, melt the butter and the flour, and stir until smooth. Gradually add the milk and cook until thick, remove from the fire, stir in the meat mixture, and set aside until cool, then fold in the stiffly beaten whites of the three eggs, place in a buttered baking dish, and bake in a hot oven. Serve at once.

BANANA CREAM PIE
One and one-half cups of milk, one-half cup of sugar, two eggs, three level tablespoons of cornstarch, one teaspoonful of vanilla. Place the milk in a double boiler and allow to heat. Stir in the cornstarch that has been diluted with a little of the cold milk, beat the yolks of the eggs with the sugar, and add two teaspoonfuls of cold water, and a few grains of salt, pour the boiling milk over the egg, beating constantly, then return to

should be turned down very low and the heat allowed to penetrate. Meat combined with the cooked and raw nonstarchy vegetables. Taken in this way in a quantity not over eight ounces for each person per day, there is no harm from its use. Many people blame meat for digestive disturbances that are really caused by the excess of starch in their diets or from wrong combinations of the starch.

Most people do not appreciate the steady supply of meat that is so storage has made possible. It is a fact that the meat supply of today is not as hazardous as it was a few years ago, as it is now subject to Federal inspection. The supply is always carefully handled and is much more likely to reach the housewife in perfect condition than ever since history began.

The small of meat cooking always makes the mouth water and causes the digestive juices to flow in anticipation. It is probably the flavor which makes meat the featured entrée in most of our menus and not the fortunate fact that it is one of our most valuable foods, being a very good source of the proteins without which no cell can live.

There is a definite need of protein in the body. It is a class of food which is used in tissue building. During the years of growth when the body increases in size, there is an even greater need of an adequate protein supply, but all matured bodies must have a source for the replacement of tissues from wear and tear.

Lean meat is from 15 per cent. to 30 per cent. protein and is one of the most easily digested forms of food. It is much more easily available for those of weak digestion than the proteins in cheese, nuts, etc. The meat is the quicker it is digested, and you will find from actual experience that meat which has the fat removed from it before broiling not only has a superior flavor but digests more readily.

In cooking meat, it should first be seared with a very hot fire on both sides. This locks the juices in and makes the meat tender. After the first quick searing, the fire

Miranda Dance Dress—Turquoise Blue Lace, Embroidered Straps—With New Petal-Hem—Joan

MODES OF THE MOMENT
by Honore Booth
FASHION EXPERT OF HARPER'S BAZAAR

NEW YORK, Dec. 29. (Exclusive)—The recent Paris openings have confirmed the new styles which we found so very exciting in August. For this reason, now is an excellent time to buy clothes, for the new things will undoubtedly hold over for at least two years. According to one of our greatest fashion experts, fashions go in two-year cycles. So we need expect no drastic changes before that time. It is quite possible that certain tendencies may be accentuated and others discarded, but in substance things will remain pretty much the same.

Americans Given to Exaggeration
American women are prone to exaggerate any fashion tendency which has its origin in Paris. When skirts were short over there, we were still shorter. Knee caps were never attractive and as a matter of fact one never saw this part of the anatomy displayed in Paris. I wish so much might be said of New York.

Now that skirts are once more long, our national tendency is to wear them yet longer than the allowed inches sponsored by Paris.

Skirts Divided
There are three distinct categories into which skirts have fallen this year. For morning wear there are the tweeds and woollens which are so good. These are longer in feeling, but actually only about

three inches, that is, fifteen inches from the ground.

For the afternoon, crepe dresses are longer, distinctly so. But with these one must be careful, for the skirt which reaches to the middle of the calf is both awkward and aging. The recognized length for these more formal frocks is thirteen and three-quarter inches from the floor. And while on the subject of the daytime things I would like to say just a word about coat lengths. They should be either three-quarter length showing a good six inches of the skirt, or else long enough to cover the skirt entirely. That would make the approved coat length about the same as the afternoon skirts—in other words, between thirteen and fourteen inches from the ground.

Evening gowns are quite definitely longer. They are long all around, though with many interesting innovations of the current hemline. A full trail slightly, but in the front one never shows more than a discreet ankle. The peacock line of dress is sharply up the front and down in the back is quite definitely out.

These delightful new fashions offer the smart woman a greater variety in clothes than she has enjoyed for many years. Not only are we given more opportunity for individual expression, but the new dress is a great deal more comfortable and more practical than the monotony and stark simplicity of post-war fashions. It is a welcome change, in which most women will rejoice.

WHEN THE SANDMAN COMES
A Bedtime Story
by THORNTON W. BURGESS

'Tis never easy to resist
The one who always dozes persist.
—Spooky the Screech Owl.

Spooky knows how to be persistent. Once he has made up his mind that he wants a certain thing, to do a certain thing, he will keep right on trying to get his way despite all sorts of discouragements. Spooky did not like it at all when he found himself back in his old home in a hollow in an apple tree in the old orchard. Farmer Brown's Boy had found him there, and he had been protesting. Spooky hadn't wanted to leave that old home in the first place, but when he had made up his mind that he could no longer live there, it upset him considerably to find himself back there.

Spooky ruffled up all his feathers, snapped his bill, grumbled and bumbled, and climbed up to the entrance. By this time Farmer Brown's Boy was no longer in sight. Spooky sat there blinking. He looked down at the crack that had let the light and the cold air into his home. He saw where Drummer the Woodpecker had widened that crack.

"Can't live here, can't live here!" Spooky mumbled over and over to himself. "Got to move, got to move! That house Farmer Brown's Boy took me out of was mine. I found it. I'm going back there."

Now, if you have the idea that Spooky the Screech Owl cannot see in the daytime, you are very greatly mistaken. He prefers the hours of darkness, but he can see perfectly in daylight. So now it was a perfectly simple matter for him to fly straight over to that house in the maple tree in Farmer Brown's front yard. He flew straight to the entrance and started to go in. But he didn't go in. Happy Jack the Gray Squirrel was in there, and Happy Jack had no intention of allowing Spooky to get inside. How Spooky did snap that bill of his! How he did scold! And how in his turn Happy Jack scolded. Almost at once Farmer Brown's Boy and the other feathered folk gathered around. They were not particularly friendly to Happy Jack, but they were friendly to Spooky. So they started in to make life miserable for him. They gathered close about him and screamed at him and called him names. Now and then one would dart at him as if to strike him, but at the last instant his courage would

fail.

Opportunities for Toothache
The common variety of snail has over 14,000 teeth, arranged in 130 rows, while another variety has 21,000 teeth in 140 rows.

YOUR BABY AND MINE

by METHEL METEL ELDER

Mrs. Elmer was so glad to answer all questions pertaining to babies and mothers, forwarded to this column, that she has decided to devote this department entirely to the subject of babies. She will answer questions on the new baby, nursing, weaning, teething, colic, and all other matters pertaining to the care of infants. Before asking a question, please write your name and address, and enclose a self-addressed stamped envelope. The question will be answered in the next issue of the column. The above is Mrs. Elmer's promise to give you a personal reply.

FATS, IF OVERFEED, CAN EASILY DESTROY APPETITE
It is not at all uncommon to find the child fed on a milk formula which is high in cream content, or very rich breast milk, large doses of cod liver oil, quantities of butter on his bread and rich and greasy gravies, suffering from a marked loss of appetite. Fat stays longest in the stomach of any food element, and until the stomach is empty there are no hunger pangs. When babies are fed every three hours, there is little appetite for food, for the stomach is always content. Think of that in fat, healthy, heavily fed, appetizing babies, and don't forget to count in all the fats—cream, butter, cod liver oil and bacon.

Mrs. H. notices that her baby's appetite is poor. She says: "Do you think a half-cupful of orange juice, with fifteen drops of plain cod liver oil, is too much to give a 18-month-old baby twice daily?"

"It is necessary to eat about twelve ounces a day."

"Does a baby this age sleep at all during the day? I mean, is that normal? How long does a baby need cod liver oil?"

Thirty drops of cod liver oil in a child this age. Cod liver oil isn't necessary after the second year for a child who shows no signs of rickets. If the appetite is poor, it might be wise to look to all the other fats in the diet, as outlined above, for in addition to the cod liver oil they might be ruining sonny's appetite.

Use Grade A pasteurized milk and it need not be boiled. Can't you incorporate more milk into the diet with his foods? This isn't hard to do.

Up to about 2 years of age most children usually take a short nap for one hour directly after lunch. Some children begin dropping this even sooner, and sometimes one has to devise ways of keeping them quiet and amused for several short rest periods instead of concentrating on a nap.

We have a leaflet which might interest you, "Ways of Improving a Poor Appetite," which you may have

for a self-addressed, stamped envelope. The feeding leaflet would be helpful in checking up, too, and you may have both in the same envelope.

BABY HATES NAILING NAILS
CUT
Mrs. W. M. has discovered that if she makes a game of nail cutting there isn't the usual trouble. She gave each finger a name, calling them after friends or members of the family. The child pretends that each of these is getting his hair cut and curled and she looks forward to having her nail pieces made neat and tidy.

Mothers of young babies, Mrs. W. M. will find this usual task a simple one if baby's nails are cut while he sleeps. With a blunt scissors and two limp little hands to deal with, instead of having to fight to hold onto them, the work can be done well and neatly, saving baby many a scratch and dig in the eye.

An international transportation and tourist exposition will be held in Poznan, Poland, next summer.

Today is the thirtieth anniversary of the death of Dr. Jose Rizal, the Filipino patriot and statesman, who was executed by the Spaniards in 1896. He is remembered as the father of the Philippine Revolution.

She came into the office with a picture of her son, who was a member of the Philippine Nationalist Party. She said: "My husband is a patriot and he wants you to find him. The picture is of his son, who is a member of the Philippine Nationalist Party."

Wrong means sympathy. Sympathy and all the other things that are not sympathy. Sympathy is a feeling, not a word.

Here are the WINNERS in the BEN-HUR CONTEST

AN AVALANCHE of nearly ten thousand letters swamped us in this contest and we were unable to classify them and make all the winners in time for Christmas, as originally planned.

The sentiments contained in these thousands of letters are highly gratifying as well as encouraging to us. They have shown us that the public is appreciative of the expense we have been to and the effort we have made to produce a real coffee especially adapted in every way to the making of a healthful beverage of America's favorite drink.

Many of the letters show us that the writers have discovered some of the advantages in Ben-Hur Drip Coffee that we have withheld from publicity because we have not wanted to give imitating competitors a cue to work on.

Practically all contestants expressed gratitude for our having given them more delicious and economical coffee than they had ever used before and for having emancipated them from the many ill attributes solely to the use of irritating unsuitable coffee, improperly prepared.

Some of the information we have gathered from these letters is very valuable to us and we are going to pass the information on to the public in a series of educational advertisements that should be read with interest and profit by all persons interested in their own welfare from a health standpoint.

FIRST PRIZE
\$100.00 Cash Prize and one Ben-Hur DeLuxe All-China Coffee Maker
Mrs. Louise C. Hay, 119 So. Benton Way, Los Angeles

SECOND PRIZE
\$75.00 Cash Prize and one Ben-Hur DeLuxe All-China Coffee Maker
Hattie S. Howard, 973 No. Normandie Ave., Los Angeles

THIRD PRIZE
\$50.00 Cash Prize and one Ben-Hur DeLuxe All-China Coffee Maker
Charles A. Jones, 1002 Laguna Ave., Los Angeles

4th To 16th PRIZES
\$30.00 Coffee Set, awarded 1 each to 12 districts
Dist. No. 1 Anne V. Leland, 1030 No. Hayworth Ave., Los Angeles
Dist. No. 2 Charles D. Rieing, 477 Douglas St., Pasadena, Calif.
Dist. No. 3 J. Beatrice Applegate, 350 Clyde Ave., Long Beach, Calif.
Dist. No. 4 Mrs. Grace Andrews, 429 E. Lime Ave., Monrovia, Calif.
Dist. No. 5 Mrs. C. M. Trimmell, Box 147, Placentia, Calif.
Dist. No. 6 Mrs. Mary Jettie, 1196 Bellview Ave., San Bernardino, Calif.
Dist. No. 7 Mrs. J. T. Crackel, 120 W. Graham Ave., Elsinore, Calif.

MISSION ASKS FOR PLANTS

Donations of shrubs and rocks to help restore the grounds of San Gabriel Mission, said to have fallen into decay, are asked in a letter from Marvel Thomas, writing for a local parlor of the Native Daughters of the Golden West.

Specialty the letter asks that the County Board of Supervisors give publicity to the request for two pomegranate trees, four pepper trees, twenty cypress trees, ten Mission grape vines and numerous specimens of cactus, prickly pear, Spanish bayonet, yucca, aloes and tuberoses.

attorney, William Alderson, filed a petition for a writ of mandamus to compel the board to assign her as a permanent teacher and give her back pay amounting to \$832.

She taught in the high school during 1922 and 1923 as a probationer, during 1923 and 1924 as a substitute and during 1924 and 1925 as a probationer again. In the summer of 1925, Mrs. Morris asserted, the board informed her she was not a permanent teacher. After that she taught as a substitute teacher.

HELD PLEA BARRED

The Pasadena Board of Education, represented by S. V. O. Prichard, deputy County Counsel, held that Mrs. Morris was barred from filing an action in court because of the three-year statute of limitations, having filed her suit in 1926, more than three years after she was informed she was not a permanent teacher.

It was the contention of Attorney Alderson that the statute of limitations never ran against Mrs. Morris' right to file a suit and that her employment subsequent to 1925 as a substitute teacher extended the statute of limitations. He also contended that Mrs. Morris was discharged in violation of the provisions of the Teachers' Tenure Act, which provides that after a teacher has taught two years she is a permanent teacher and cannot be discharged from service without charges filed and a trial held before the board.

visions of the Teachers' Tenure Act, which provides that after a teacher has taught two years she is a permanent teacher and cannot be discharged from service without charges filed and a trial held before the board.

Colored Films Involved in Suit

Suit is on file today in the United States District Court, entered by the Max B. Du Pont Vitacolor Corporation against Multicolor Film, Inc.; Binoocular Stereoscopic Film Company, and several individuals, asserting that the defendants infringed on a patent held by the plaintiffs and relating to the coloring of photographic images, together with a patent for an apparatus for treating films. It is asserted the patents were assigned to the plaintiff corporation.

The plaintiff company seeks preliminary and permanent injunctions that the apparatus be delivered to the court and impounded, that an accounting of past profits be made and that the plaintiffs be given such other relief as the court may decide.

PROTEST HEARING ON WIDENING DUE

The City Council this morning will take up the hearing of protests against the improvement of the Cross-avenue and Eldred-street improvement district and the widening and laying out of Yosemite Drive and Glacier Drive. The Council also will consider appeals against the confirmation of assessments for the installation of lighting appliances in Spaulding avenue from Pico Boulevard north to a point near Eleventh street.

COUNTY ROAD AID ASKED

On recommendation of its County Affairs Committee, the City Council has asked the Board of Supervisors to make an additional allocation of \$15,000 toward the improvement of Manchester avenue, thus bringing the county's aid up to \$45,000.

County to Get City's Cash for Roadway Strip

The City Council has instructed City Clerk Dominguez to deposit with County Clerk Lampton the sum of \$18,000 in order to obtain immediate possession of property needed for the laying out and widening of Beverly Glen Boulevard between Soemle Road and Greendale avenue. This section of the South Sherman Way project has a narrow pavement at present, but it is the plan of the city to widen and straighten it, the work beginning about May 1.

Meanwhile work is going forward on the section between Ventura Boulevard and Soemle Road across the Santa Monica Mountains, with the prospect that it will be finished in a short time. This part of the thoroughfare is called South Sherman Way. The completed artery will form a more direct route between the western part of the San Fernando Valley and the western beach cities.

Stage, Screen Folk Speak Before Club

Luminaries of the stage and screen were the honored guests at the Christmas celebration of the Women's Breakfast Club Thursday morning at the Hotel Huntington. Prominent among the speakers was Frank McHugh, noted stage portrayer of Abraham Lincoln, who gave some interesting sidelights on the character of the Great Emancipator that he gleaned in study towns. The presentation of the role on the stage was followed by a play on the same theme. Brief talks and Christmas greetings were voiced by Julia C. Helms, Virginia Brown Fiske, Frances Farmer, Herman Markiewicz and George Nye. Little Miss Joyce Oak responded to her introduction by the recitation of two lovely poems addressed to her visitors and the audience with all the grace and aplomb of a mature entertainer. Harry Johnson's travesty on Italian opera offerings was well received as were two Swedish sketches given in costume by Mrs. Murphy. A well-trained chorus composed of club members accompanied the program with a group of Christmas carols. Mrs. A. C. Murdoch arranged the program and Mrs. Hattie T. P. was president.

REQUEST TURNED DOWN
The City Council has turned down the request of Charles H. H. for the city lease to him the lot formed by the intersection of the Seventh street. Hoover street and Lafayette street for use as a line service station.

Followers

**PANTHERS HOLD HARD
PRACTICE AT TUCSON**
The team left for Pasadena on
its special train at 7:45 tonight.

Six Panther Players Make Second Trip

Six members of the University of Pittsburgh football squad, which arrives today to meet Southern California in the Rose Bowl New Year's Day, played against Stanford in Pitt's previous Tournament of Roses appearance two years ago. Joe Donohue, all-American end for the past two seasons, is the only one of the sextet who was a regular in 1927. Toby Dana, all-American halfback; Tom (Pug) Parkinson, all-American fullback; Ray Montgomery, all-American guard; Charles Edwards, reserve quarterback; and Felix Wilps, reserve halfback, were substitutes two years ago when the Cardinals knocked out Pittsburgh, 7 to 6.

BOXING IN DOLDRUMS THIS WEEK

**Nation's Fistic Program
Has Little to Thrill Fight
Followers**

NEW YORK, Dec. 29. (AP)—There's little on this week's nation-wide boxing program to thrill the somewhat blasé fistic public. Maxie Rosenbloom's tangle with Leo Lomax, the Aberdeen (Wash.) "Assassin," in Madison Square Garden here Friday night seems to head the list long in quantity but decidedly short in quality. Rosenbloom, a contender for Tommy Loughran's vacated lightweight crown, and Lomax, another leading 175-pounder, have met three times with honors all even. Rosenbloom holds one decision over the

TROJANS PRIMED TO GIVE PANTHERS GREAT BATTLE

**Pitt's Opposition Not So Tough but
Sutherland's Team Has Not
Been Extended by Foes**

BY HEAVEN DYKE
The Golden Panthers of Pittsburgh, undefeated and rated one of the two outstanding teams in the country, invade Pasadena this morning. Jack Sutherland and his band of twenty-nine players are slated to arrive at 8:30 o'clock, going immediately to the Hotel Huntington, where Pitt headquarters have been established.

BRUINS AND UTAH FIVES TANGLE UP

**Coach Peterson's Cagers
Seek Revenge in Game at
Olympic Tonight**

With the score two down and one to go, Coach Vadal Peterson's University of Utah basketball team will attempt to gain revenge to night over the University of California at Los Angeles cagers in the final game of the three-game series in the Olympic Auditorium. Although the Utah Indians cannot win the series with a victory tonight against the powerful Gaddy Works aggregation, it is their opinion that they can at least gain partial revenge for their defeats last Friday and Saturday nights in the first two games of the series. The Bruins defeated the Utes on Friday night by a score of 44 to 34, and on Saturday night by a score of 43 to 33.

Capt. Jerry Smith, stellar forward, will lead the attack of the visitors tonight. Smith scored nineteen points to lead the visitors in the first game of the series, but the Bruins remembered him in the second game to the extent of cutting his point total down to four digits. The Indians retaliated

Wednesday afternoon the Smoky City eleven opposes Howard Jones' University of Southern California team in the fifteenth annual Tournament of Roses grid clash at the Rose Bowl. The game sold out week ago and thousands of unticketed fans are bawling their ill luck in failing to obtain duets to the struggle which will be witnessed by a capacity crowd of 70,000 souls. Stanford's smacking 34-10-13 victory over Army has only served to increase interest in the Pasadena game and it is not an exaggeration to say that the Rose Bowl could have been filled twice over for the forthcoming attraction.

GREAT RECORD
Pittsburgh comes here with a great record, a fine squad of players, a thoroughly capable coach and dogged determination to wipe out the memory of that 7-6-6 defeat suffered at the hands of Stanford at the Rose Bowl two years ago.

Inasmuch as Pitt is undefeated, the logical assumption seems to be to establish Sutherland's team as favorites over Southern California, the Trojans having been beaten twice. However, I doubt if Pitt had any fear as tough as Notre Dame and California, the teams which swept Troy.

On over Pitt's opponents and you'll get what I mean. Duke, Wayneburg, West Virginia, Nebraska, Allegheny, Ohio State, W. and J. Carnegie Tech and Penn State were Panther foes. Ohio State and W. and J. were probably the best of the lot. At that Ohio State was beaten by Illinois, 37 to 0; Northwestern, 18 to 6, and tied by Indiana, 9 to 6. W.

HUNT DEFEATS COHN AT NETS

**Bay City Jun. or Wins Over
Santa Monica Youngster**

Charles Hunt of San Francisco, national junior boys' 15 years and under doubles champion, yesterday scored a sensational upset in the finals of his division by defeating his doubles partner, Jay Cohn of Santa Monica, after three sets of brilliant tennis, 7-5, 2-6, 6-2. The match was played on the courts of the Ambassador Hotel in the second semi-annual Ambassador junior tennis tournament, held during the last week under the direction of Vernon A. (Bud) Campbell, tennis professional. This was the first time that Hunt has ever beaten young Cohn in the eleven times that they

BROWN WISDOM WINNER

**Sturdy Sprinter Carries Top Weight to Capture
Feature at Agua Caliente Track**

BY RALPH HUSTON
"Times" Staff Representative
AGUA CALIENTE, Dec. 29.—Top weight of 126 pounds meant little or nothing to Brown Wisdom, and that sturdy sprinter flashed home in front of a fast field in the six-furlong San Francisco handicap, feature of today's card at the new Agua Caliente track. This speedy gelding, which has raced with the fastest horses in the country on eastern tracks, drew the heaviest impost in the field of six runners, and Jockey Clyde Turk merely had to kick him in the flanks a couple of times to bring him home two and a half lengths ahead of Alexander Pantagru, winner of last year's speed handicap. Poppy Field lasted to be third. The time of 1:12 2-5 was very good for the track. A holiday crowd which apparently had remained over on

ARMY TEAM HONORED BY CHAMBER OF COMMERCE

Gen. William R. Smith, commandant of West Point, Coach "Biff" Jones, and the Army eleven, 119 strong, were honored banquet guests of the Los Angeles Chamber of Commerce at the 1929 Olympics, urging Army men to attend the games. It had been hoped that the cadets, following their strenuous game at Stanford, would be able to stop over for the New Year's game between Southern California and Pittsburgh. That could not be arranged, however, and the team rolled out of Los Angeles this morning at 2 o'clock, en route home. In order to accommodate the large number of guests, the Co-

WESTERN GRID SQUAD IN SERIOUS WORKOUT

SAN FRANCISCO, Dec. 29. (AP)—The West got down to serious football practice on the St. Mary's campus, in Moraga Valley today, in preparation for the Shrine's annual East-West grid classic Wednesday at Kezar Stadium here. The East, this year, is armed with a bright array of all-American stars, but this has not lessened the general confidence of the West. Under the command of Coach Percy Loe and his lieutenant, Jack Patrick and "Cac" Hubbard, the westerners worked intensively today in final preparations for the battle. Only two things have disturbed the feeling of confidence in the western stronghold. Benny Lom, California star halfback, turned up with an injured leg and yesterday Clair Sloan, Nebraska's backfield ace, reported with a deep cleat wound in his shin. While Loe was sending his charges through their paces, Head Coach Andy Kerr of the East marshaled his forces on one of Stanford University's practice fields. The squad from the sunrise side of the Rockies has shown great power in its workouts and Coach Kerr believes that game honors are due to fall to his team. Tom Dwyer, Colgate halfback, is still on the shelf with a wrenched knee, but may be sufficiently recovered by Wednesday to play a part of the game.

LOCAL PUCK TEAMS CLASH

Hollywood May Get Second-Place Tie by Winning Over Richfields at Winter Garden Tonight

Already starting to close in on the leading teams from the north in the struggle for supremacy in the California Hockey League, the two local puck aggregations will stage another of their fends at the Winter Garden Ice Palace tonight when the Los Angeles Richfields meet the Arthur Guy Empey Hollywood Millionaires.

Each team accomplished the con-e-bite tonight. Hollywood has beaten the champion Coca twice in a row but has been able to get no better than a tie in its last three games with Los Angeles. Hollywood will be playing accordingly tonight trying to break this streak, while the Oilers, at top form, will attempt to show that they are more than overnight heroes.

Two new players, Bud Nichols and Bill Vaughn, will be in the Oil line-up and Hollywood may have more than a little trouble with them tonight, particularly Nichols, who was the chief thorn in San Francisco's side. The younger appears to be major league timber and teams up well with old-timers like Sarge T. King, Guy Poole and Jack Lawrence.

Line-ups:

Richfield, and that will be the case again tonight. Hollywood likewise has a chance to go into second place, should the Oilers lose to the Oilers in the north. The Oil men, too, can pass Hollywood by a win tonight and can step up to near the Oilers that some changes may be worked in the ace within a short time.

Both teams apparently are in top form and are gunning for the top. Los Angeles always is at its best against Hollywood but will need to

1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 26

A black and white photograph of a newspaper page. The page is filled with dense, small text arranged in columns. A large, bold, serif font headline is visible on the right side, partially cut off by the edge of the frame. The headline reads "WOND" on the top line and "WANT" on the line below it. The text below the headline is also in a bold, serif font, but it is mostly illegible due to the low resolution and the angle of the photograph. The overall appearance is that of a historical newspaper clipping.

[illegible]

The image shows a close-up of a book's endpaper. The pattern consists of a dense, repeating grid of small, dark, rectangular shapes, possibly representing a woven fabric or a printed texture. The lighting is somewhat uneven, with the right side of the image being brighter and showing more detail of the pattern, while the left side is in deep shadow. The overall effect is a complex, textured visual field.
